ACTIVE WORK BEGUN

Political Atmosphere About Denver Growing Dense.

WORKERS NOW ON THE FIELD

Friends of Bryan, Gray, Johnson and Chanler Are on Hand to Look After the Interests of Their Candidates. Campaign Is Opened Early.

Denver, Colo., March 18.—Active political work on behalf of candidates for the nomination for president and vice president before the national democratic convention which meets in Denver July 7, has already begun in this city.

Headquarters have been rented at leading hotels and political workers are on the ground looking after the interests of the men they represent.

The campaign for the various candidates seems to have opened about two months earlier than is usual.

Prominent among those who have been mentioned in connection with the presidential nomination are W. J. Bryan, of Nebraska; George Gray, of Delaware; Stuycesant Chanler, of New York, and Governor John A. Johnson, of Minnesota. Their friends, who are already here in their interest, state positively that their names will go before the convention as nominees. A number of other candidates for the nomination are mentioned, but none of them appear to have developed strength enough so far to make their intentions of interest to those who are really in the race

The attitude of the deelgation from Colorado is atracting a great deal of interest. The argument is made that because the convention is being held in this state and more than $100,000 is to be spent in the entertainment of the delegates from other states, the Colorado deelgation should go into the convention uninstructed. For this reason it is possible that Colorado's delegation will be left free to vote for whatever candidate it chooses.

DECLARED UNCONSTITUTIONAL.

Anti-Jug Bills Not Likely of Passage by Congress.

Washington, D. C., March 18.—The prospect for the enactment of any prohibition bills, giving to a dry state the regulation of interstate shipments of liquor upon crossing the border of such state, is exceedingly slim, so far as this session of congress is concerned.

A subcommittee of the senate judiciary committee decided against the constitutionality of such legislation by a vote of 3 to 2. Senators Bacon and Nelson voted to report the Bacon bill. Senators Fulton, Rayner and Knox voted against it. The full committee meets next Monday and will consider the two reports.

SHOP FORCE IS REDUCED.

Thousand Men Are Laid Off by the Queen and Crescent.

Chattanooga, Tenn., March 18.—A general reduction of the shop force of the Queen and Crescent railroad was made effective Monday, involving one thousand men.

The road now has just a sufficient number of men at work in the shops of the system to make the necessary repairs. Forty-eight men were dropped from the shops in this city, including foremen, machinists, etc.

The order applied to Ludlow, Ky., Somerset, Ky., Oakdale and Chattanooga, Tenn., and Birmingham, Ala.

The cause of this action is said to be the refusal of the men to accept a 10 per cent reduction in wages which was to have been made effective on April 1.

Georgia Republicans.

Atlanta, March 18.—The republican state central committee, the official body of the party in Georgia, will meet in the hall of the senate at noon on Saturday, May 25, pursuant to a call which will be issued by Chairman Walter H. Johnson, the purpose of the meeting of the committee being to fix the place and date of the republican state convention.

TRAGEDY AT VERDA, LA.

Friction Between Whites and Blacks Lead to Shooting Affray.

Alexandria, La., March 18.—George Poole, twenty-eight years of age, died at the Alexandria sanitarium Monday as a result of wounds alleged to have been inflicted by J. W. Scott, at Verda, Grant parish. It was at first believed that Pooles' home was in Orange, Tex., but relatives made arrangements to send the body to the parents at Lake Charles, La. Scott made good his escape.

Poole was the only man to lose his life in some general shooting which occurred at Verda, the trouble growing out of friction between white and negro laborers at the mills of the Taylor-Richardson Lumber company. Poole was employed as a special officer at the mill and when he met Scott, Scott began to abuse him. The men were separated, but as Scott walked away he drew a revolver and fired several bullets into Poole.

When employees of the mills went for an engine to make up a special train for the purpose of carrying Poole to Alexandria, they were fired on by unknown parties. There was other shooting about the little town and several more injuries are reported.

At the hospital here it was found that the bullets fired into Poole were of the "split head" variety, breaking up upon striking. They terribly mangled young Poole's body and left no chance for him to survive.

All is reported quiet at Verda, the authorities having the situation well in hand.

ACTOR HITCHCOCK ACQUITTED.

Chief Witness Says She Swore Falsely Before Grand Jury.

New York, March 18.—A sensational development occurred Monday in the trial of Raymond Hitchcock, the comedian, when Judge Blanchard ordered the acquittal of the defendant on the indictment against him growing out of the charges of Ellen Von Hagan, a young girl.

The action of the justice was taken upon motion of Assistant District Attorney Garvan after Flora Whiston, the prosecution's chief corroborating witness, had testified that the story she told before the grand jury was false. Several other indictments on similar charges are still pending against Hitchcock.

Later the girl was arraigned in police court on a charge of perjury and held in $5,000 bail for examination. In default of bail she was locked up in the Tombs.

EVANS TO RESIGN?

Ill Health May Cause Admiral To Retire from Navy Command

San Francisco, Cal., March 18.—A special dispatch from Sandiego, Cal., contains news of an announcement by Rear Admiral Evans, commander of the Atlantic fleet, that upon its arrival at San Francisco he would retire from command because of ill health.

This announcement officially confirms the report from Washington that Admiral Evans would haul down his flag upon arriving at San Francisco.

Black Sport Must Die.

Atlanta, March 18.—Governor Smith Monday approved the recommendation of the prison commission, which denied the application for commutation to life imprisonment for Andrew Johnson, convicted murderer of Policeman J. A. Magler. This means that Johnson, otherwise known as "Black Sport," must pay the penalty of his crime on the gallows. The refusal of the prison commission to recommend clemency, and the governor's approval of its action takes away the last hope Johnson may have had for escaping the noose.

To Prevent Sunday Baseball.

Montgomery, Ala., March 18—With notice that Sunday baseball is to be tried in Montgomery comes a demand on the local pastors' union for the law and order league of the state to prevent such violation of the law. President G. C. Miles of the league was served with a police that he was expected by the pastors to see that the law is kept. "You may say for me," said Mr. Miles, "that every effort will be made on the part of the league to prevent Sunday baseball in the state."

FOUR KILLED, 20 HURT

Fatal Explosion In Powder Mills In Indiana.

PHYSICIANS SENT TO SCENE

Force of the Explosion Shattered Windows in the Town and Was Heard for Many Miles—All the Dead Were Employees.

Linton, Ind., March 18.—Four men were killed and from fifteen to twenty were seriously injured at 7:30 o'clock Tuesday morning in an explosion at the United States Powder mills, fourteen miles from here.

The explosion occurred in one of the ten wheel houses.

All the men killed and injured were employed in this building.

The dead are George Gray, William Myers, Peter Simmons and one unidentified.

The powder mills are located at Coalmont.

All the windows in the town were shatered by the force of the explosion. Many plate windows were also broken here.

The explosion was heard for many miles.

All available physicians from the neighboring towns were sent for.

UNITED MINE WORKERS.

Scale Committee Preparing Final Report To Be Submitted.

Indianapolis, Ind., March 18.—The scale committee of the national convention of the United Mine Workers of America went into session Tuesday to prepare a final report to be submited to the convention which will incorporate recommendations as to the course to be pursued by the miners under conditions caused by the refusal of the operators of the central competitive district to meet with them in joint convention prior to April 1, when the present scale expires.

Replies were received from the operators of Illinois, Ohio, Indiana and Western Pennsylvania to the invitations sent by the miners asking them to meet here in joint conference on March 24. None of these operators was ready to enter into a conference, preferring to wait until certain local differences had been setled.

ALDRICH FINANCIAL BILL.

Provision Regarding Railroad Bonds May Be Eliminated.

Washington, March 18.—When the committee on finance began its regular weekly meeting Tuesday there was every prospect that the provision making railroad bonds good for extra bank circulation would be eliminated from the Aldrich financial bill.

State, county and municipal bonds will be allowed to remain.

Was Not the Earl of Leitrim.

Chicago, March 18.—After an exchange of cablegrams between Leitrim Lojdon and Richard Walsh, of Paloduro, Hex., the earl's American representative, it was definitely learned that the body here awaiting identification is not that of the earl. The dead man was Herbert Domakin, of Manchester, England, and his identity was established by Domakin's brother living there who had communicated with Earl Leitrim. The resemblance between Domakin and the earl's brother is remarkable.

Married in a Buggy.

Newton, Miss., March 17.—Alber. Boykin of Laurel and Miss May Jewell Kropp of this place were married while sitting in a buggy in front of the home of Rev. S. B. Culpepper, who performed the ceremony.

Threw Himself Under Car.

Cincinnati, O., March 18.—George W. Whittington, of Gl[illegible]er, Miss., suffering from melancholia, threw himself in front of a College Hill car in this city and was crushed to death.

Congress to Adjourn May 16.

Washington, March 18.—Senator Aldrich has expressed the belief that congress will adjourn May 16th.

SHOT WHILE ON TRAIN.

South Carolina Judge a Target for Un. Known Marksman.

Augusta, Ga., March 18.—Ex-Judge O. W. Buchanan, of Winnsboro, S. C., whose wife is a niece of Senator B. R. Tillman, was mysteriously shot and perhaps mortally wounded Monday while on his way from Columbia to Augusta to attend the bedside of a niece who is ill here.

Judge Buchanan was seated by an open window in the day coach of a Southern train when the train pulled out of Wards, S. C. The train had proceeded but a short distance when a shot was fired through the window by an unknown party, the bullet grazing the window ledge and entering the judge's right side, penetrating to the hollow. He was cared for on the train until it arrived here, and taken to a private sanitarium, where an operation was performed. He is in a critical condition.

He was prominent in the defense of James H. Tillman when the latter was held for trial for killing Editor N. G. Gonzales, of the Columbia State. Mr. Tillman is with the judge.

"WEARIN' O' THE GREEN."

St. Patrick's Day Was Appropriately Observed.

Atlanta, March 18.—Tuesday was St. Patrick's day and was observed quite generally throughout the country.

The ancient saint is said to have driven the snakes out of Ireland on this day. The modern St. Patrick, on the first of January this year, drove the producers of snakes out of Georgia, going him one better.

Be he Pole, Swede, Englishman, Irish or German, the majority of men in Atlanta, and for that matter, the county over, was "wearin' o' the green" during the day.

Meridian Bank Fails.

Meridian, Miss., March 18.—The Southern bank, an institution known to have been in financial distress for some time, failed to open its doors Monday morning. President B. V. White and Cashier J. C. Rushing posted a notice on the door stating that the the benefit of the depositino BTAO directors had closed the bank for the benefit of the depositors pending arrangements to liquidate the institution. The bank was capitalized at $100,000, and Cashier Rushing is quoted as saying the liabilities will run close to $60,000.

Charity Richly Rewarded.

New York, March 18.—Bernard Satsky, an expressman, of Newark, took $1 to give to the rabbi for charity. "You might as well enjoy your charity," he was told by the rabbi. "Use the dollar to go to the charity ball of the congregation tonight. It will be just the same." Satsky went to the ball and before he started for his stable afterwards, he heard that the coupon on his ticket for the ball was the one that had drawn in a raffle a three-story dwelling house on Prince street, unencumbered by morigage.

Wins Rhodes Scholarship.

Athens, Ga., March 18.—N. L. Jewett Williams, of Macon, a member of the university law class, has been awarded the Rhodes scholarship in Oxford university, England, by the Rhodes scholarship committee for the state of Georgia, consisting of Chancellor Barrow, Professor Hocock, of the university of Georgia; Professor Murray, of Mercer, and Professor Peed, of Emory. Mr. Williams leaves this summer for Oxford for a stay of two years.

Train Gatling Gun on Riders.

Maysville, Ky., March 18.—The American Tobacco company has placed a gatling gun on the roof of their warehouse here to prevent night riders burning the building. Men will be constantly on guard and work the gun if the night riders appear.

Cotton Mills Cut Wages.

Norwich, Conn., March 18.—Notice of a 10 per cent reduction in wages at the cotton mills of the Shetucket company and the Falls company was posted Monday, the reduction to take effect next week. In all, about 1,200 hands are affected.

SITUATION IS CRITICAL

Foreigners Are In Danger at Port-Au-Prince.

HAVE SOUGHT LEGATIONS

New Minister of the Interior, M. Lecomte, Is Described as "Blood-Thirsty" and Further Reprisals Are Feared.

Paris, March 18.—Official dispatches received here from Haiti indicate that the situation there is still critical for foreigners.

Mr. Carlton, the French minister, reported that fresh executions occurred Monday night, but he does not give the number. He says that previous to Monday night twenty-seven men had been executed. He describes M. Lecomte, the new minister of the interior, as "blood-thirsty."

Further reprisals are feared, and there is still danger of attack on the foreign legations and consulates. The French cruiser D'Estrees is expected at Port-au-Prince momentarily and it is reported there that an American warship had already arrived at Gonaives.

M. Carten says nothing about any change in the attitude of the Haitien revolutionists who have taken asylum at the consulates, and it is presumed that Lecomte still insists that they be turned over to him at once. The French government, however, will never consent to the delivery of General Firmin or his comrades, nor of M. Nadreau or the other Haitiens who sought asylum at the French legation on Sunday.

The French government does not anticipate the slightest friction with the United States over the situation.

The Monroe doctrine is in no sense involved and there is no question of intervention. The sole purpose of France, Germany, Great Britain and presumably the United States also, is the protection of foreign subjects against the rapacity of the Haitien soldiery.

Foreign Vessels Arrive.

Port-Au-Prince, Hayti, March 19.—Two foreign cruisers have arrived here, the British Indefatigable and the German Bremen.

The coming of the ships to Port-Au-Prince is a surprise to the people. The lives of foreigners are not considered to be in danger. Tuesday the situation is tranquil.

The Indefatigable steamed into the harbor at 8 o'clock Monday night and announced her arrival by three cannon shots. These detonations at that late hour created a small panic in Port-Au-Prince, but calm was quickly restored as soon as the reason of the firing was made known.

Wreck on Santa Fe.

Cleburne, Tex., March 18.—South-bound Santa Fe passenger train leaving here Monday night, was wrecked two miles south of here at Trinity and Brazos Valley crossing. The engine left the track, turning completely over, and dragging the baggage car and express car after it, and also derailing two coaches. The passengers were considerably shaken up, but no one was seriously injured. Fireman Squires received injuries by jumping from his engine.

Churchman Dead.

New Orleans, La., March 18.—The Rt. Rev. Gustav A. Louxel, auxiliary bishop of the archdiocese of New Orleans, died here Tuesday after an illness of several weeks. Bishop Louxel was born at Roden, France, in 1840. He was ordained to the priesthood in New Orleans in 1863. He has been rector of the Catholic Church of the Annunciation since 1885 and auxiliary bishop of the archdiocese since 1899.

NEWS NOTES FROM NATIONAL CAPITAL

Another Land Fraud Has Been Recently Discovered.

REPUBLICANS HAVING TROUBLE

Among Themselves, and the Fight Becomes More Bitter Daily—Senator Bailey Delivers Great Speech—Other Notes of Interest from Washington.

Special Correspondence The Daily Sun.

Washington, D. C., March 18.—An ugly land fraud almost under the dome of the Capitol has been discovered within the last week whereby the Government has been defrauded of land worth a very considerable sum and only by a mere chance avoided losing another valuable tract. Senator Carter exposed the transaction in the Senate and that body immediately repealed the law which conveyed to Bieber his last title, the Secretary of War having delayed acting under that enactment. It is not known what the House will do in the matter as it is evident that in that chamber there are powerful influences at work to hush the whole matter up. For the entire parcel of land, Bieber appears to have paid about $5,000, the parcel containing about 20 acres, and for a small part of the land he recently refused to accept from the Pennsylvania railroad $15,000 cash. The Government has already expended $300,000 for improving the Anacostia river on which this land, which carries the riparian rights, abuts, and it is proposed to expend a very much larger sum. The records show that for the last transaction Representative Bartholdt of Missouri was responsible and Mr. Bartholdt has made a statement saying that the action of his committee was perfectly proper and regular, but there is every indication that the Senate will express a different opinion. It is assumed in the Senate that Bieber must have exerted very powerful influence in the House to secure such favorable legislation.

Bieber was formerly assistant fire marshal of the District of Columbia. He became ill and through the kind influence of Speaker Cannon he secured a pension of $90 a month for life, although he is still a man of middle age and is now in excellent health. He has recently been engaged in an effort to have the two delegates from the District instructed to vote for Speaker Cannon in the Republican National Convention. When asked on the night after Senator Carter made the exposure in the Senate what he had to say regarding it, Bieber said that he was "too busy with local politics to discuss the matter."

The fighting in the Republican ranks is becoming more and more bitter every day. A Republican Representative, Mr. Acheson, of Pennsylvania, has recently inspired a report to the effect that Cecil Lyon, of the Republican National Committee from Texas, was collecting from postmasters in that State 10 per cent of their salaries as a campaign fund. Then the President came back at Mr. Acheson and pointed out that a Republican, but not Cecil Lyon, had attempted to make such a collection, that he had been prosecuted by direction of the President and that only this week the Supreme Court of the United States has decided that case against the said Republican, who is now liable to a fine of $60,000 and imprisonment for thirty years. The political end of the fight is interesting, however, from the fact that this arrays Acheson against the President and vice versa, and as Acheson is having a very hard fight in his district against a prominent Pennsylvania Elk, it is now believed the Congressman will be defeated.

The most brilliant speech which has yet been heard on the Aldrich bill was made last week by Senator Bailey of Texas. Mr. Bailey spoke for three and one-half hours and held the attention of an audience which crowded both the Senate and the galleries, many Democrats coming over from the House to listen. Mr. Bailey opposed the Aldrich measure because he believes that the banks should be allowed to issue no money and that such issue should be confined to the Government. He indicated, however, that if he could not get his substitute, providing for $1,000 million emergency Treasury notes, he would vote for the Aldrich bill.

Congress seems prepared to pass the Frye resolution which provides that the material for the Panama canal must be carried in American vessels unless the prices charged are extortionate. Of course this exception makes the bill seem fair on its face, but the fact is that under such a bill the Secretary of War will feel compelled to pay at least 50 per cent more to American ships than is asked by foreign vessel owners, and even if when asked still higher prices by Americans there will be a howl of indignation from the vessel owners if he dares to employ foreign ships. That was the case with the vessels carrying coal to the Pacific for the current battleship cruise. It will be remembered, although the Secretary did fly in the face of the ship-owners and charter a number of foreign vessels.

Representative Tawney is again shouting economy, and he declares there will be no public building bill this year, and that provision will be made for only two battleships if he has his way. He says he is determined to keep the total appropriations down to the limit for the current year, $920,000,000, but it will be interesting to see if Mr. Tawney raises his voice against the pernacious pension legislation whereby it is proposed to put all the old soldiers' widows who are not entitled to a pension under the existing laws, on the rolls at $12 a month, thus increasing the pension budget by about $15,000,000, a year. That is a measure with which it is expected to make Republican votes and perhaps promote the candidacy of Speaker Cannon. Cannon makes Tawney chairman of appropriations, and so it goes.

There has been a little more variety in Democratic politics recently. Several representatives of Judge George Gray of Delaware have been in Washington looking over the ground, and the action of the Minnesota Democratic committee in endorsing Governor Johnson adds somewhat to the gayety of the situation, although there is as yet no indication that Mr. Bryan will meet with any serious opposition in the Denver convention.

Pat Speight is Here.

Pat Speight of Fort Gaines, Ga., an old friend and schoolmate of the city editor of The Sun, is in the city on a brief visit to relatives.

"Pat" was always the most popular boy in school, because he could climb the highest tree with the greatest ease, build the best dam in the branch for swimming purposes when the day's studies were over, jump the farthest, throw the longest ball, "lick" everything in school—in fact he was "it," in his boyhood school days, and this made him the king of the flock.

But "Pat," like the rest of us, has been compelled to settle down and go to work, with the result that he has made a fine record, and his old school-mates and friends are proud of him. Many a happy day has been spent with "Pat" in the black-jack woods of the red hills of Old Georgia, where in those days the boys had nothing on their minds but their hats—and in many cases these were worn-out straws.

"Pat" still retains that good nature, however, and is making friends here every day he remains, despite the fact that he declares he came down for a rest, and nothing more.

W. S. PRINDLE WAS FOUND DEAD IN ROAD

Well-Known Citizen of Gainesville Met a Sudden Death.

APOPLEXY CAUSE OF HIS DEATH

Man Well-Known in This Section, Having Been for Years Connected With the Chase Interests—Friends Respond When Death Was Reported.

This city was thrown into a state of excitement Wednesday afternoon, when it was learned that W. S. Prindle, a well-known citizen and resident of this city, was found dead in the road near Paradise a short time after noon on that day.

The telephone message came to this city to the offices of The Dutton Phosphate Company, where the deceased was connected with the C. W. Chase Company as superintendent of lands, and the news spread rapidly, as Mr. Prindle was a man well known and popular.

Immediately after receipt of the information, the ambulance, accompanied by several vehicles containing friends, went to the scene, and found the lifeless form of Mr. Prindle stretched upon the ground, in the middle of the road, his face and countenance as black as ink, with no trace of recognition except to those who knew him well.

There is no doubt that Mr. Prindle died of apoplexy, and very sudden. He left this city about 10 o'clock, as was his custom, to look over the work of the Chase interests at Paradise, and, arriving at Paradise, he complained of feeling badly. However, he proceeded, and the next thing known was the report that he had been found on the road dead.

The remains were brought to this city in the afternoon, and were taken to the undertaking parlors of Robt. McClellan. Funeral will be held at 2 o'clock p. m. today, Rev. F. H. Craighill of the Holy Trinity Episcopal church officiating. The interment will be in the private cemetery.

Mr. Prindle is survived by a wife, to whom the sympathy of the community is extended.

THE NEWS FROM MELROSE.

Delightful Entertainment of Woman's Home Mission Society.

Melrose, Fla., March 18.—The Woman's Home Mission Society of Melrosé ought to feel very proud indeed of the great success of their first entertainment, given at the home of Mrs. A. W. Craig Monday night. This beautiful old Southern home, with its spacious verandas and large hall leading into numerous fine entertaining rooms, was an ideal place for just such a gathering, and although over a hundred people were present, there was room to spare for many more.

The varandas were all lighted up with pretty Japanese lanterns. The hall had a large Japanese lantern in the center, from which festoons of lovely pink and green ribbons reached to the sides, the walls being handsomely decorated with palms. The parlor was gay with festoons of red, white and blue, mingled with the red and white of the Confederacy. Large branches of snowy dogwood were arranged against the walls, the other rooms being equally artistically decorated.

The following program was successfully rendered:

Piano solo—Miss S. Mullin.
Piano solo—Miss Nora Mullin.
Short talk—Rev. Barr.
Song—Mrs. Ford and Miss Barnett.
Piano solo—Miss S. Mullin.
Recitation—Miss K. Mizelle.
Piano duett—Miss V. Husband and R. Kennedy.
Reading—Mrs. A. J. McGregor.

This was followed by the serving of delicious ice cream and cake, and then the fun began. Nearly every one present had come provided with a mysterious package or box, ready to trade with their friends. Many amusing "swaps" were made, causing great enjoyment and laughter; the final "swaps" very often leaving the owner with an empty box. Still some very good exchanges were made by some smart traders.

Altogether it was a delightful affair, and the committee, consisting of Mrs. O. C. Husband, Miss A. W. Craig, Miss C. McRae and Miss May Barnett, are to be congratulated on their financial and social success.

The W. H. M. S. of Melrose is growing rapidly, new members being added at nearly every meeting. May this society prosper and continue its good work, is the wish of all Melrose.

Will Set the Date Late in April or Early in May.

THIS IS THE RIGHT SEASON

M. B. Saunders, Being a Picnic Man, Recognizes the Importance of Holding Outings Early, as They Do Not Interfere With Other Outings.

The union Sunday school picnic, which has always been held in early May, will be changed this year, because it has been generally decided by the management of the various Sunday schools that May is too late, for several reasons. The first is that it keeps the children too long in anticipation, and prevents the members of families and of associations and clubs who do not desire to conflict with the union a better opportunity to make their dates with impunity.

M. B. Saunders, who always manifests a deep interest in these affairs, has informed The Sun that the union Sunday school picnic would be held earlier this year than usual, on this account. Mr. Saunders is a Presbyterian—and a good one, too. He has seen and appreciated the disadvantage of waiting too long, and it was largely through his effort and influence that it was decided to hold the picnic earlier this year. Again, the weather as a rule is better at this season of the year, as the trees are green, the birds have just begun to sing, and in all the time for a spring picnic is in the beginning of the spring. Mr. Saunders has succeeded in convincing the various Sunday school leaders of this fact, with the result that there has been no trouble in changing the date.

On next Sunday, at every church in the city, this matter will be discussed at the Sunday school. There is no doubt but that the date will be changed, but everything is owing to the time from April 20 to May 1. However, whatever date is fixed by the "older heads," it will suit the young people, as they are ready and willing at any time.

The report of the decision of the date, as well as other particulars, will be published in The Sun of Tuesday.

Senator Foraker did not attend the Ohio Republican convention but the convention appears to have attended to him all the same.

January imports of $85,000,000; January exports of $206,000,000—the way this country can both hustle and economize when it has to is a wonder.

The election of Senator Foraker to membership in the Down-And-Out Club seems to be unanimous. Defending Brownsville coons is bad business.

The third termers want a chronic case of Roosevelt. But he is still young, and it is enough to know that the attack probably will be intermittent after 1912.

President Diaz, of Mexico, positively declines to run for a sixteenth term. But he doesn't do it with a bang and scream like the great American decliner.

The Danish Landthing has passed a woman's suffrage act. Hereafter no female with political aspirations will dream of referring to the Landthing as a "mean thing."

Denver hotel rates are not to be increased during the Democratic convention. Furthermore, it is positively denied that any Denver hotelkeeper wishes to be postmaster in that city in case of Bryan's election. Altruism certainly is looking up.

A friend has favored us with a copy of The Foraker Tribune, published at Foraker, Okla. On its first page, at the head of the first column, it carries: "Our Ticket: For President, Hon. William H. Taft." Speaking of the irony of fate, that looks like a whole foundry running overtime.

A motar-driven rotary ice machine invented by a Frenchman makes small pieces of ice in from 3 to 10 minutes and can cool from ½ to 12 quarts of water per minute, according to the size of the machine, says The April Popular Mechanics. The advantages claimed for it are its extreme simplicity, small power required, small quantity of condenser water necessary, and safety in operation.

The shipbuilding summary of the world for 1907 shows that the United States ranks second for the year in total tonnage and ships constructed, the figure being 488,059 tons. England comes first with 1,673,121 tons, nearly four times as much. Germany is third with 292,073 tons. Japan is fourth and France fifth, the former having to its credit 122,095 tons.—From Popular Mechanics for April.

MICANOPY SECTION O. K.

G. D. Folks, traveling representative of The Sun, has returned from a general tour of the east and south ends of the county, where he not only met with fine success, but was royally entertained.

Mr. Folks is one of those fellows who always has a good disposition, and carries it with him. As a result he is easy to become acquainted with, because he does not believe in formalities, and "pitches right in" as though he had known the people always.

But the people appreciate this feature of Mr. Folks' disposition, because he has the faculty of making himself at home and welcome everywhere and under every circumstance—and those whom he had never met before feel the same impulse—that he is welcome.

Mr. Folks visited many places during his last trip, but felt especially impressed with Micanopy and its surroundings.

In speaking of the cabbage crop, he says there is a large acreage of the finest plants, but apparently no market for them. The prospects for an early bean crop are good, as the beans are up and looking well.

The men engaged in fishing are experiencing fine luck. The catches are large, the fish are choice and bringing good returns.

Rain is badly needed, but many of the growers have irrigating plants, much to the disadvantage of the growers who must depend upon the weeping of the clouds.

One of the most interesting points visited by Mr. Folks was the stock farm of J. B. Simonton, a beautiful place, well kept by a good man. He speaks highly of the hospitality extended by Mr. Simonton and his good wife, who did everything possible for his entertainment. Mr. Simonton has, among other things, about eighty head of fine full-bred Jerseys, which are admired by everyone who sees them, and which are destined to pay him handsomely in time. Everything is up-to-date at the Simonton farm, which is one of the finest in the State.

Mr. Folks states that the Carolina House at Micanopy is full of traveling men all the time, which is the best evidence of the popularity of that popular resort, which has long been one of the leading country hotels of the State.

APPLEYARD FOR COMPTROLLER.

The True Democrat offers to its brethren of the State press for their consideration the name of Hon. T. J. Appleyard, of Lake City, for the position of State Comptroller. Like other newspaper men of Florida, he has given considerable of his time and his limited means to those things that tend to the development of the State. His recent exhibit at the State Fair at Tampa of the resources of the northern section of the State, in placing his own county's resources on exhibition, should give him the support of every man. Politically, during a public life of over twenty years, he has been clean and upright. No man can point to a dishonorable act of his. He would be a strong man, and would make a good officer. What say our brethren of the State press? Who seconds the motion of The True Democrat?

The above article appeared in The Tallahassee True Democrat in its issue of the 6th inst. Mr. Appleyard is a good man and fully capable of filling the office above mentioned. If elected he would discharge the duties of the office in a fair and impartial manner. He has many friends throughout the State who would be glad to see him enter the race.

It hardly seems possible that anybody hates Germany bad enough to want to see her get the Philippines.

THE HAND-SHAKE.

What a difference there is in the handshake of different candidates! The green hand at the work sometimes gives you a jerk and is off to do the next man. Or, he may be so embarrassed that he squeezes the little hand till the owner almost cries in pain. Sometimes the new candidate just touches the tips of the fingers. Not so the old veteran. His handshake is cordial—not too hard nor too soft, not too fast or too slow. There is a difference even in the shake of the two who are both past masters in the art. Old men tell us that men forgot their troubles after having the peerless Wm. D. Bloxham give one of his cordial grasps of that hand that pressed so many palms of the loyal and unterrified. His campaigns were remembered not only for that eloquence that was so peculiarly his own, but by his cordial handshakes. And who could forget that younger man, Col. Bob Davis? His handshake was just as cordial as that of the gifted son of Old Leon. Still, it was different. Pat Murphy, Senator Taliaferro's friend, described the difference, according to his interpretation. He once said: "When Governor Bloxham shakes your hand, he makes you feel that he wants you to be his friend. When Bob Davis gets me hand he impresses me with the solemn truth that he is my friend." Pat was wrong to draw such a conclusion from two of the most unselfish sons of Florida. Still, it illustrates the fact that there is a difference in the shake.—Arcadia News.

The other day a Chicago man laughed until he fell over and cut his head on a radiator. Someone must have assured him that the Republicans will revise the tariff immediately after the next election.

Women as Well as Men Are Made Miserable by Kidney and Bladder Trouble.

Kidney trouble preys upon the mind, discourages and lessens ambition; beauty, vigor and cheerfulness soon disappear when the kidneys are out of order or diseased.

Kidney trouble has become so prevalent that it is not uncommon for a child to be born afflicted with weak kidneys. If the child urinates too often, if the urine scalds the flesh, or if, when the child reaches an age when it should be able to control the passage, it is yet afflicted with bed-wetting, depend upon it, the cause of the difficulty is kidney trouble, and the first step should be towards the treatment of these important organs. This unpleasant trouble is due to a diseased condition of the kidneys and bladder and not to a habit as most people suppose.

Women as well as men are made miserable with kidney and bladder trouble, and both need the same great remedy. The mild and the immediate effect of Swamp-Root is soon realized. It is sold by druggists, in fifty-cent and one-dollar size bottles. You may have a sample bottle by mail free, also a pamphlet telling all about Swamp-Root, including many of the thousands of testimonial letters received from sufferers cured. In writing Dr. Kilmer & Co., Binghamton, N. Y., be sure and mention this paper. Don't make any mistake, but remember the name, Swamp-Root, Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y., on every bottle.

The Dade County Fair for the year 1908 closed on Friday night. The exhibit has been the most successful fair for several years, if not the best in its history. The quality of the products placed on exhibition was of the best possible quality, far above those exhibited last year.

The receipts from the colored Catholic fair, which was recently held in St. Augustine, far exceeded all expectations, amounting to $424.78. This fair was given by the colored Catholics for the benefit of the sisters' school. The colored members of the church were given substantial assistance by their white friends.

Alleging that he has been falsely imprisoned, Ole Malland, who has been residing in Pensacola for a short time, has brought suit against S. Noohelm and Thomas S. Falck, in the sum of $5,000. The latter two parties caused the arrest of Malland, making affidavit against him, and causing a warrant to issue for his arrest. He was held in jail for twelve days, and when he was tried was found not guilty of the charge brought against him. He alleges that during this period he was unable to support his family and that his arrest is also working a hardship against him, in that the stigma of having been confined in jail has prevented him from securing employment.

After causing excitement and unusual activity on the part of the police and great uneasiness on the part of his mother, the twelve-year-old son of Mrs. A. Rutledge, residing in the western section of Pensacola, returned to his home Monday morning, thus ending a rumor that a boy, supposed to be the Rutledge lad, had been thrown into the bay at night by a negro man. This report was brought to the police station by a number of youngsters, but the office paid but little attention to it until the mother appeared upon the streets and was frantic in her grief, and was begging citizens to assist her in finding her boy, who she claimed had left home with a negro. Then the officers became active, but never secured any clue to the whereabouts of the boy. Now he has returned to his home with the statement that he had spent the afternoon and night with some young friends.

WASHING WITHOUT WATER

Is Like Trying to Get Rid of Dandruff Without Herpicide.

Did you ever see any one trying to wash themselves without soap or water?

If you did what would you say of him?

It is every bit as foolish to try to get rid of Dandruff and to prevent Baldness by feeding the germs which cause it, with Cantharides, Vaseline, Glycerine and similar substances which form the principal ingredients of most so-called Hair Vigors.

Newbro's Herpicide is successful because it attacks and kills the parasitic germ which feeds on the hair roots.

It is the original and only genuine scalp germicide manufactured.

Sold by leading druggists. Send 10c. in stamps for sample to The Herpicide Co., Detroit, Mich.

HAD A "ROUGH HOUSE."

Citizens of North Gainesville Were Stirred to Excitement.

The citizens of good old North Gainesville, who never think of trouble, but who are always awake to a good, sociable time, passed through the experience of quite a change in "social life" on Monday evening, when a white man, well known, appeared at a certain house, and, with words which would not sound just in place in church or a religious meeting, proceeded to say a "thing or two," and, it is stated, threatened to kill the master of the house and make a butchershop out of the place generally.

This was something new in the proceedings of the usually quiet family, the master of which would not harm the "hair of a gnat's head." But this white man with white hair had become red-headed, and he was looking for trouble, evidently.

He did not get what he was looking for, as the "man of the house," it is said, made himself safe behind an empty flour barrel filled with turpentine dross, while he called for help. His neighbors heard him, and in a short time he was arrested, relieved of the responsibility of "slaying" the maitre d'home, who still held his position behind the barrel of "chips."

MISTRIAL RESULTED IN SLAUGHTER CASE

Young Man From West End Arraigned in U. S. Court.

THE JURY FAILED TO AGREE

Slaughter is Charged With Breaking and Entering Postoffice at Wannee, But Prosecution Evidently Could Not Get Sufficient Evidence to Convict.

The Florida Times-Union of Monday contains the following, which will prove of interest to readers of The Sun, as the defendant is a well-known young man, and has many friends in the West End, where he makes his home:

"The Federal court jury in the case of Naoli Slaughter, a young white man, charged with breaking and entering the postoffice at Wannee, Fla., after being out five hours, disagreed at 9:30 o'clock last night, and the case resulted in a mistrial.

"The strongest evidence against the defendant, and that upon which his arrest was based, was the fact that shortly after the robbery he had a considerable amount of money in his possession. Witnesses testified at the hearing that they had changed various denominations of small change, as would likely accumulate in a postoffice, into bills for young Slaughter a few days after the robbery. W. J. Locke, postmaster at Wilcox, testified that he sent a registered letter for Slaughter to Solomon Shad in this city. A. J. Shad testified he had opened a letter addressed to Solomon Shad and signed by R. E. Bell. This is the name the Wilcox postmaster testified that Slaughter used in registering the letter.

"The defendant produced some strong testimony in his behalf, and when the case went to the jury its outcome was felt to be doubtful.

"Another trial will in all probability be ordered."

BETTER THAN MEDICINE.

Breathe Hyomei's Tonic Healing and be Cured of Catarrh.

Nature has a remedy for catarrh, a treatment that is far better than dosing the stomach with medicine and drugs.

It is the healing oils and balsams of Hyomei which medicate the air you breathe, reaching the most remote air cells in the nose, throat and lungs, killing all catarrhal germs and restoring health to the mucous membrane.

The use of Hyomei is like a curative internal air bath, and has the same healing and antiseptic effect as where the pine forests give off their fragrant and healing balsams.

Breathe the invigorating and healing Hyomei and see how quickly you will get relief from catarrh. If it does not help you there will not be a penny's expense, as J. W. McCollum & Co. agree to refund the money if it fails to cure. The complete Hyomei outfit costs only $1.

Selling Booze Costly Game.

Atlanta, March 18.—On the charge of selling three pints of whisky, Will Dixon, a negro, was convicted in the city court Monday and was sentenced by Judge Calhoun to pay a fine of $1,000 or serve twelve months in the chaingang. "I don't see what you want to sell whisky here for," said Judge Calhoun in passing sentence. "The game is not worth the candle."

TWO ARE KILLED IN TRAIN WRECK

Accident to Train on A. C. L. Near Richland.

ENGINEER WAS BADLY INJURED

Wreck the Result of the Partial Burning of a Trestle—Men Killed Are Both Colored—News Notes and Personals from High Springs.

High Springs, March 18.—News has just been received here of a terrible wreck which occurred at 4 o'clock this morning near Richland, on the A. C. L. Train No. 213, which left High Springs last night at 7:40, ran off of the Hillsborough trestle, which was on fire and partly destroyed. The engine and several cars were burned up. Engineer DuBose was badly injured and two negroes, fireman and brakeman, were killed. Superintendent Council was on the train, but was unhurt, and walked back to Richland and reported the wreck.

The death of Mr. E. Futch occurred at Santa Fe on Monday, the 16th, at the home of his son-in-law, E. L. Price. Mr. Futch was one of the oldest inhabitants of this section, being 84 years old. He was a man greatly respected and beloved by all who knew him. He was the father of fourteen children, ten of whom survive him. The burial took place at New Hope cemetery, near Santa Fe, on the 17th, in the presence of an immense crowd of relatives and friends.

Judge J. Emmett Wolfe and wife of Tallahassee returned home Wednesday, after being the guests for several days of Mr. and Mrs. H. O'Bannon. Judge Wolfe is the newly-elected Grand Chancellor of the Knights of Pythias, and his visit to High Springs Lodge No. 51 was the first in his official capacity. His popularity in the K. of P. order was evidenced by his unanimous election to the highest office during the recent convention at St. Petersburg.

Miss Marie Mann of Newberry spent Sunday with Mrs. P. P. Wood. Miss Mann was principal of the High Springs school last year, and has many friends in this place.

J. C. La Count and Jas. Day, representatives from the K. of P. lodge, and Mrs. G. W. Easterlin and Mrs. P. P. Wood, who represented the Pythian Sisters, have returned from the convention at St. Petersburg. They report that it was a most delightful occasion, so much being done for their entertainment.

The Modesty of Women

Naturally makes them shrink from the indelicate questions, the obnoxious examinations, and unpleasant local treatments, which some physicians consider essential in the treatment of diseases of women. Yet, if help can be had, it is better to submit to this ordeal than let the disease grow and spread. The trouble is that so often the woman undergoes all the annoyance and shame for nothing. Thousands of women who have been cured by Dr. Pierce's Favorite Prescription write in appreciation of the cure which dispenses with the examinations and local treatments. "There is no other medicine so sure and safe for delicate women as "Favorite Prescription." It cures debilitating drains, irregularity and female weakness. It always helps. It almost always cures. It is strictly non-alcoholic, non-secret, all its ingredients being printed on its bottle-wrapper; contains no deleterious or habit-forming drugs, and every native medicinal root entering into its composition has the full endorsement of those most eminent in the several schools of medical practice. Some of these numerous and strongest of professional endorsements of its ingredients, will be found in a pamphlet wrapped around the bottle, also in a booklet mailed *free* on request, by Dr. R. V. Pierce, of Buffalo, N. Y. These professional endorsements should have far more weight than any amount of the ordinary lay, or non-professional testimonials.

The most intelligent women now-a-days *insist* on knowing what they take as medicine instead of opening their mouths like a lot of young birds and gulping down whatever is offered them. "Favorite Prescription" is of KNOWN COMPOSITION. It makes weak women strong and sick women well.

Dr. Pierce's Medical Adviser is sent *free* on receipt of stamps to pay expense of mailing *only*. Send to Dr. R. V. Pierce, Buffalo, N. Y., 21 one-cent stamps for paper-covered, or 31 stamps for cloth-bound.

If sick consult the Doctor, free of charge by letter. All such communications are held sacredly confidential.

Dr. Pierce's Pleasant Pellets invigorate and regulate stomach, liver and bowels.

Albert W. Gilchrist

Candidate for Governor of Florida

No faction, machine or ring, brought him out. He came out as a candidate alone and single-handed. He will be glad to receive the support of the corporations, of the anti-corporations, the prohibitionists and the anti-prohibitionists, of the local optionists, the Christians and the Jews and of the Gentiles, the "Publicans and Sinners." He would even accept the support of the Pharisees.

The corporations cannot do without the people, and the people cannot do without the corporations. Neither should be allowed to oppress the other. Capital is organized, labor should organize.

The license tax law licensing each little enterprise should be amended in order that taxation should bear more evenly.

Article XIX of the Constitution provides for Local Option. The qualified electors (not the Governor) approve or veto constitutional amendments. He is not on the "recently constructed band wagon."

He commenced life working in Quincy, Florida, at a salary of $15 per month, and boarded himself. He has himself been a hard-working, struggling man and he knows what it means in others. He has never married, he has always had obligations. His life has been spent more in thoughtful consideration of other people than of himself. He feels sure he will be elected "if he gets enough votes." He does not propose to trade off a single office. There is honor in being Governor. If it is tainted with dishonor he does not want the office.

TILLMAN GROWS CAUSTIC.

Denounces Executive Encroachment on Legislative Power.

Washington, March 18.—With a caution unusual for him, Senator Tillman Monday read a part of his speech in the senate, in which he denounced executive encroachment on legislative power. With this apparent caution he proceeded to deliver one of the most direct and denunciatory addresses ever heard in that body. He was given a careful hearing.

His speech was based on his resolution instructing the committee on finance to inquire whether national banks of New York are in the habit of furnishing permanent capital for speculative enterprise, etc. The resolution was adopted.

Mr. Tillman traced what he termed a "swinging of the pendulum" from the regime of Andrew Johnson, when congress assumed control almost to the exclusion of the president from legislative influence to the administrations that followed, which he declared witnessed a growth of presidential power. The dominating influence and control of the executive branch he said, over the legislative and in a less degree over the judicial branches of the government were the most marked features of American politics at this time.

"It has taken," said Mr. Tillman, "just forty-one years for the pendulum to swing from one extreme to the other."

Flood Danger Over.

Tacoma, Wash., March 18.—After 48 hours' of apprehension lest a flood similar to that of November, 1906, was impending, residents of the valleys of the White, Black, Stuck and Puyamup rivers breathed easier Tuesday when the waters which had been rising since Saturday began to recede. Reports from all portions of the threatened country indicated that the swollen rivers were falling.

JOHN D. LIKES AUGUSTA.

Rockefeller Will Spend Much Time in the Georgia City.

Chicago, March 18.—A dispatch to the Tribune from Augusta, Ga., says: "I am fond of Augusta," said John D. Rockefeller. "I intend to spend as much of my time here as I can That is why I have bought land here. I intend to erect a home and I shall spend several months every year here. I would spend more of my time here if it were not for my business affairs. Why do I like Augusta?" said Mr. Rockefeller. "I like it because the people here treat me as a human being. People don't bother me. I am free from the notoriety that pursues me at other places I am always glad to come here and sorry to leave."

Denied at White House.

Washington, March 18.—The report that the president is about to send a special message to congress urging upon its attention certain matters of necessary legislation recommended by the civic federation meets with a positive denial at the White House.

The fact is the president, as already stated, through the press for the past fortnight, has been in consultation at intervals with members of the federation for the most part individually and separately, but sometimes in groups, concerning the prospect of securing legislation in the direction of their desires before the adjournment of the present session of congress. The outcome is expected to be the presentation within a few days by Representative Hepburn, of Iowa, of one or more bills covering the subject.

Residence Burns at Douglasville.

Douglasville, Ga., March 18.—The old Strickland homestead was destroyed by fire at an early hour here Monday morning. A few household goods were saved, but besides this it was a total loss. Being in the heart of the business section, the fire was dangerous to a large number of stores but heroic work on the part of the bucket brigade prevented further damage. The origin of the fire is unknown.

Shot from Ambush.

Evansville, Ind., March 18.—P. B. Carter, of Chattanooga, Tenn., and J. B. Barry, of Louisville, Ky., two traveling salesmen were shot from ambush by negroes near Dixon, Ky., and are confined in an Evansville hospital in a dangerous condition. There is grave doubts as to their recovery.

Bank Robbers Arrested.

El Paso, Tex., March 18.—A telegram from Juan A. Creel, manager of the Banko Minero of Chihuahua, Mexico, to the local branch of that bank, received here, says that the robbers who recently secured $295,000 from the bank have been arrested, and that the stolen money has been located but not yet recovered.

OLD SORES FED AND KEPT OPEN BY IMPURITIES IN THE BLOOD

If Old Sores were due to outside influences, or if the cause was confined strictly to the diseased flesh around the ulcer, then external treatment and simple cleanliness would cure them. But the trouble is in the blood, which has become unhealthy and diseased, and keeps the sore open by continually discharging into it the impurities and poisons with which the circulation is filled. This poisonous condition of the blood may be the remains of some constitutional trouble; the effect of a long spell of sickness, or because the natural refuse of the body, which should pass off through the proper avenues, has been left in the system and absorbed into the blood. Again, the cause may be hereditary; but it does not matter how the poison becomes intrenched in the blood, the fact that the sore will not heal is evidence of a deep underlying cause. Salves, washes, lotions, etc., may cause the place to scab over temporarily, but the blood is not made any purer by such treatment, and soon the old inflammation and discharge will return and the sore be as bad or worse than before. S. S. S. goes down to the very bottom of the trouble, cleanses and purifies the blood, and makes a permanent cure. S. S. S. enriches and freshens the circulation so that instead of discharging unhealthy matter into the place, it carries rich, tissue-building, flesh-healing blood to the diseased parts and in every way assists in a natural cure of the sore. Book on Sores and Ulcers and any medical advice free to all who write.

THE ANTI-SALOON LEAGUE.

Interesting Program Carried Out at Tabernacle Yesterday.

The program of the second day of the Florida Anti-Saloon League, which is being held at the Tabernacle, was one of enjoyment, as the program was one full of interest to those who attended.

It is to be regretted that the entire program could not be published, but this is the fault of the management, who promised to have the secretary furnish proceedings. However, we suppose both the management and secretary were weary at the end of the meeting, and did not feel like coming to the newspapers.

The program for Wednesday was a most interesting one, and was carried out as planned. There was a fine address by Hon. J. N. C. Stockton in the evening, who spoke on "State Legislation Needed, and Why." Mr. Stockton had a fine audience, and held the closest attention of those who heard him.

Today's program will be as follows:

DEATH OF MR. FUTCH.

One of Alachua County's Oldest Citizens Passed Away Monday.

Eli Futch, eighty-four years old, died at the home of Mrs. W. M. Blitch, in Santa Fe, at 4 o'clock Monday morning of lagrippe, after an illness of two weeks.

Deceased was born in Statesboro, Liberty county, Georgia, on June 22, 1824, and came to Florida when a young man. He settled at Santa Fe, and has been on one farm consecutively for fifty-seven years.

Deceased was married about 1851 to Miss Martha Markey, and fourteen children came to bless them, but of these only ten survive, being four daughters and six sons. The sons are J. E. Futch of this city, Prof. J. F. Futch and J. T. Futch of Wauchula, W. D. Futch and R. T. Futch of High Springs and I. S. Futch of Alachua. The daughters, Mrs. W. M. Blitch of Santa Fe, Mrs. C. W. Stephens and Mrs. C. W. Wells of Alachua, and Mrs. Laura Jones of Madison, Ga.

The funeral was held Tuesday morning at 11 o'clock, and the interment was at New Hope cemetery. Rev. W. C. Foster of Alachua officiating.

Friends of the family extend sympathy in this hour of bereavement.

A runaway dray horse caused a great deal of excitement yesterday, when he decided to take a "spurt" around the square, finally landing at the corner of East Main and Liberty streets, where the animal decided to inspect the stock of The G. W. Hyde Company. When the horse reached the pavement his foot slipped, which resulted in the animal falling to the walk, when he was captured.

PHOTOGRAPHY.

Photography today is an economic and social necessity in every community. It maintains the memory and affections of family life through the picture it makes, and which we could not now do without. How often is regret expressed that no picture exists of some friend or relative who is no longer with us! Sometimes, indeed, the camera has to intrude upon the sacredness of the death chamber itself when relatives feel that a photograph in such circumstances is better than none at all. Do not procrastinate. Be wise and "secure the shadow ere the substance fades."

You can get a picture from locket to life-size at Smith's Studio.

ACTIVE WORK BEGUN

Political Atmosphere About Denver Growing Dense.

WORKERS NOW ON THE FIELD

Friends of Bryan, Gray, Johnson and Chanler Are on Hand to Look After the Interests of Their Candidates. Campaign Is Opened Early.

Denver, Colo., March 18.—Active political work on behalf of candidates for the nomination for president and vice president before the national democratic convention which meets in Denver July 7, has already begun in this city.

Headquarters have been rented at leading hotels and political workers are on the ground looking after the interests of the men they represent.

The campaign for the various candidates seems to have opened about two months earlier than is susal.

Prominent among those who have been mentioned in connection with the presidential nomination are W. J. Bryan, of Nebraska; George Gray, of Delaware; Stuycesant Chanler, of New York, and Governor John A. Johnson, of Minnesota. Their friends, who are already here in their interest, state positively that their names will go before the convention as nominees. A number of other candidates for the nomination are mentioned, but none of them appear to have developed strength enough so far to make their intentions of interest to those who are really in the race.

The attitude of the deelgation from Colorado is atracting a great deal of interest. The argument is made that because the convention is being held in this state and more than $100,000 is to be spent in the entertainment of the delegates from other states, the Colorado deelgation should go into the convention uninstructed. For this reason it is possible that Colorado's delegation will be left free to vote for whatever candidate it chooses.

DECLARED UNCONSTITUTIONAL.

Anti-Jug Bills Not Likely of Passage by Congress.

Washington, D. C., March 18.—The prospect for the enactment of any prohibition bills, giving to a dry state the regulation of interstate shipments of liquor upon crossing the border of such state, is exceedingly slim, so far as this session of congress is concerned.

A subcommittee of the senate judiciary committee decided against the constitutionality of such legislation by a vote of 3 to 2. Senators Bacon and Nelson voted to report the Bacon bill. Senators Fulton, Rayner and Knox voted against it. The full committee meets next Monday and will consider the two reports.

SHOP FORCE IS REDUCED.

Thousand Men Are Laid Off by the Queen and Crescent.

Chattanooga, Tenn., March 18.—A general reduction of the shop force of the Queen and Crescent railroad was made effective Monday, involving one thousand men.

The road now has just a sufficient number of men at work in the shops of the system to make the necessary repairs. Forty-eight men were dropped from the shops in this city, including foremen, machinists, etc.

The order applied to Ludlow, Ky., Somerset, Ky., Oakdale and Chattanooga, Tenn., and Birmingham, Ala.

The cause of this action is said to be the refusal of the men to accept a 10 per cent reduction in wages which was to have been made effective on April 1.

Georgia Republicans.

Atlanta, March 18.—The republican state central committee, the official body of the party in Georgia, will meet in the hall of the senate at noon on Saturday, May 23, pursuant to a call which will be issued by Chairman Walter H. Johnson, the purpose of the meeting of the committee being to fix the place and date of the republican state convention.

HIGH SPRINGS MINSTRELS.

Appeared to a Good House in Newberry, and Were Well Received.

Newberry, March 17.—The High Springs Minstrel Troupe, under the able management of Wm. Davidson, showed to a large and appreciative audience in the Ruff Opera House Saturday evening. The minstrel was a grand success from the rising of the curtain on the opening chorus, "San Antonio," to the drop of the curtain on the last of the funny features of the grand specialty, "The Five-Cent Barber Shop."

The features of the evening were the comical black faces "Sambo," "Pompey," "Bones" and "Gus," who kept the audience convulsed with laughter by their ludicrous songs and jokes. The white faces received much applause for the sweet songs rendered with much effect.

Willie Hall, the black-faced comedian, was the recipient of much applause in his specialty and brilliant parody on "Teddy and the 'Coon, Coon, Coon.'" N. Davidson and R. Witherspoon were others of the comedians that the audience appreciated.

The fourteen members of the troupe expressed themselves as being well pleased with our town and the nice manner in which they were treated during their stay in the city.

BETTER THAN MEDICINE.

Breathe Hyomei's Tonic Healing and be Cured of Catarrh.

Nature has a remedy for catarrh, a treatment that is far better than dosing the stomach with medicine and drugs.

It is the healing oils and balsams of Hyomei which medicate the air you breathe, reaching the most remote air cells in the nose, throat and lungs, killing all catarrhal germs and restoring health to the mucous membrane.

The use of Hyomei is like a curative internal air bath, and has the same healing and antiseptic effect as where the pine forests give off their fragrant and healing balsams.

Breathe the invigorating and healing Hyomei and see how quickly you will get relief from catarrh. If it does not help you there will not be a penny's expense, as J. W. McCollum & Co. agree to refund the money if it fails to cure. The complete Hyomei outfit costs only $1.

Flood Danger Over.

Tacoma, Wash., March 18.—After 48 hours of apprehension lest a flood similar to that of November, 1906, was impending, residents of the valleys of the White, Black, Stuck and Puyamup rivers breathed easier Tuesday when the waters which had been rising since Saturday began to recede. Reports from all portions of the threatened country indicated that the swollen rivers were falling.

UNITED MINE MORKERS.

Scale Committee Preparing Final Report To Be Submitted.

Indianapolis, Ind., March 18.—The scale committee of the national convention of the United Mine Workers of America went into session Tuesday to prepare a final report to be submited to the convention which will incorporate recommendations as to the course to be pursued by the miners under conditions caused by the refusal of the operators of the central competitive district to meet with them in joint convention prior to April 1, when the present scale expires.

Replies were received from the operators of Illinois, Ohio, Indiana and Western Pennsylvania to the invitations sent by the miners asking them to meet here in joint conference on March 24. None of these operators was ready to enter into a conference, preferring to wait unti certain local differences had been setled.

ALDRICH FINANCIAL BILL.

Provision Regarding Railroad Bonds May Be Eliminated.

Washington, March 18.—When the committee on finance began its regular weekly meeting Tuesday there was every prospect that the provision making railroad bonds good for extra bank circulation would be eliminated from the Aldrich financial bill.

State, county and municipal bonds will be allowed to remain.

Was Not the Earl of Leitrim.

Chicago, March 18.—After an exchange of cablegrams between Leitrim Lojdon and Richard Walsh, of Paloduro, Hex., the earl's American representative, it was definitely learned that the body here awaiting identification is not that of the earl. The dead man was Herbert Domakin, of Manchester, England, and his identity was established by Domakin's brother living there who had communicated with Earl Leitrim. The resemblance between Domakin and the earl's brother is remarkable.

SHOT WHILE ON TRAIN.

South Carolina Judge a Target for Unknown Marksman.

Augusta, Ga., March 18.—Ex-Judge O. W. Buchanan, of Wiansboro, S. C., whose wife is a niece of Senator B. R. Tillman, was mysteriously shot and perhaps mortally wounded Monday while on his way from Columbia to Augusta to attend the bedside of a niece who is ill here.

Judge Buchanan was seated by an open window in the day coach of a Southern train when the train pulled out of Wards, S. C. The train had proceeded but a short distance when a shot was fired through the window by an unknown party, the bullet grazing the window ledge and entering the judge's right side, penetrating to the hollow. He was cared for on the train until it arrived here, and taken to a private sanitarium, where an operation was perfomed. He is in a critical condition.

He was prominent in the defense of James H. Tillman when the latter was held for trial for killing Editor N. G. Gonzales, of the Columbia State. Mr. Tillman is with the judge.

"WEARIN' O' THE GREEN."

St. Patrick's Day Was Appropriately Observed.

Atlanta, March 18.—Tuesday was St. Patrick's day and was observed quite generally throughout the country.

The ancient saint is said to have driven the snakes out of Ireland on this day. The modern St. Patrick, on the first of January this year, drove the producers of snakes out of Georgia, going him one better.

Be he Pole, Swede, Englishman, Irish or German, the majority of men in Atlanta, and for that matter, the county over, was "wearin' o' the green" during the day.

Meridian Bank Fails.

Meridian, Miss., March 18.—The Southern bank, an institution known to have been in financial distress for some time, failed to open its doors Monday morning. President B. V. White and Cashier J. C. Rushing posted a notice on the door stating that the the benefit of the depositiao ETAO directors had closed the bank for the benefit of the depositors pending arrangements to liquidate the institution. The bank was capitalized at $100,000, and Cashier Rushing is quoted as saying the liabilities will run close to $60,000.

Charity Richly Rewarded.

New York, March 18.—Bernard Batsky, an expressman, of Newark, took $1 to give to the rabbi for charity. "You might as well enjoy your charity," he was told by the rabbi. "Use the dollar to go to the charity ball of the congregation tonight. It will be just the same." Batsky went to the ball and before he started for his stable afterwards, he heard that the coupon on his ticket for the ball was the one that had drawn in a raffle a threestory dwelling house on Prince street, unencumbered by mortgage.

SITUATION IS CRITICAL

Foreigners Are In Danger at Port-Au-Prince.

HAVE SOUGHT LEGATIONS

New Minister of the Interior, M. Lecomte, Is Described as "Blood-Thirsty" and Further Reprisals Are Feared.

Paris, March 18.—Official dispatches received here from Haiti indicate that the situation there is still critical for foreigners.

Mr. Carlton, the French minister, reported that fresh executions occurred Monday night, but he does not give the number. He says that previous to Monday night twenty-seven men had been executed. He describes M. Lecomte, the new minister of the interior, as "blood-thirsty."

Further reprisals are feared, and there is still danger of attack on the foreign legations and consulates. The French cruiser D'Estrees is expected at Port-au-Prince momentarily and it is reported there that an American warship had already arrived at Gonaives.

M. Carlen says nothing about any change in the attitude of the Haitian revolutionists who have taken asylum at the consulates, and it is presumed that Lecomte still insists that they be turned over to him at once. The French government, however, will never consent to the delivery of General Firmin or his comrades, nor of M. Nadreau or the other Haitiens who sought asylum at the French legation on Sunday.

The French government does not anticipate the slightest friction with the United States over the situation.

The Monroe doctrine is in no sense involved and there is no question of intervention. The sole purpose of France, Germany, Great Britain and presumably the United States also, is the protection of foreign subjects against the rapacity of the Haitien soldiery.

Foreign Vessels Arrive.

Port-Au-Prince, Hayti, March 19.—Two foreign cruisers have arrived here, the British Indefatigable and the German Bremen.

The coming of the ships to Port-Au-Prince is a surprise to the people. The lives of foreigners are not considered to be in danger. Tuesday the situation is tranquil.

The Indefatigable steamed into the harbor at 8 o'clock Monday night and announced her arrival by three cannon shots. These detonations at that late hour created a small panic in Port-Au-Prince, but calm was quickly restored as soon as the reason of the firing was made known.

Wreck on Santa Fe.

Cleburne, Tex., March 18.—Southbound Santa Fe passenger train leaving here Monday night, was wrecked two miles south of here at Trinity and Brazos Valley crossing. The engine left the track, turning completely over, and dragging the baggage car and express car after it, and also derailing two coaches. The passengers were considerably shaken up, but no one was seriously injured. Fireman Squires received injuries by jumping from his engine.

Churchman Dead.

New Orleans, La., March 18.—The Rt. Rev. Gustav A. Lenzel, auxiliary bishop of the archdiocese of New Orleans, died here Tuesday after an illness of several weeks. Bishop Lenzel was born at Roden, France, in 1849. He was ordained to the priesthood in New Orleans in 1883. He has been rector of the Catholic Church of the Annunciation since 1883 and auxiliary bishop of the archdiocese since 1899.

STANDARD FARM MADE A BIG HIT

Exhibited Some of Finest Animals in Country at Horse Show

A CENTER OF ATTRACTION

Were the Handsome Horses, Well Groomed and Sleek, as They Paraded in the Ring Before Thousands of Enthusiastic Lovers of Horses.

From Tuesday's Daily Sun:

The great display of the stock of the Standard Stock Farm of this city by Dr. Clarence B. Strouse at the recent horse show at the Mid-Winter Exposition, created a great deal of interest among lovers of horse-flesh, being the center of attraction upon numerous occasions. No finer horses can be found in the United States, or in the world for that matter, than the stock owned by this farm, and which has been the means of bringing Gainesville and Alachua county into prominence on more than one occasion.

The people of Gainesville will naturally feel proud of the Standard Stock Farm, after they have read the following complimentary notice from The Times-Union of Sunday:

"Those who attended the Horse Show at the Florida Mid-Winter Exposition enjoyed the magnificent entries made by the Standard Stock Farm, and in order that those who were unable to see these horses, may have an opportunity to do so, Dr. Clarence Strouse has consented to give an exhibition of a very novel and beautiful nature next Wednesday night in the arena in front of the grandstand in the exposition grounds.

"For this purpose a string of horses and up-to-date carriages, coaches, etc., will be held in Jacksonville until the latter part of next week, when they go North to participate in several other horse shows. The program of events in this line for Wednesday night will be witnessed under electric light, and will present a splendid showing. The opportunity thus afforded will be taken advantage of, no doubt, by the merchants and their families who were unable to get away in the day time and see the fine exhibition of horse-flesh in the recent horse show. There will be shown for the first time three saddle horses from the Standard Stock Farm, four-in-hands, carriage horses, single harness horses to runabouts, and in fact, a complete and beautiful show with a parade, of all the Standard Stock Farm outfit in the ring at one time.

"The original proposer of the Mid-Winter Exposition Horse Show, Mr. George L. Taylor of Archer, Fla., one of the commissioners of Alachua county to the exposition, was in the city today, and met with Director General Kushibiki and other officials of the exposition on the matter of a magnificent exhibit of the products of Old Alachua county for next year. Mr. Taylor is very enthusiastic over the prospects for next year, and promises that early preparations will be made looking toward a big exhibit."

A Genuine Shamrock.

From Tuesday's Daily Sun:

One of the most impressive attractions in the city today, as far as St. Patrick's Day is concerned, is a genuine shamrock, which was sent Mrs. J. M. Hunt by her mother-in-law, Mrs. Margaret Hunt, direct from the Hills of Killarney, and which Mrs. Hunt naturally appreciates very highly, as it is probably the only genuine shamrock in the city.

Through the courtesy of Mrs. Hunt, the shamrock will be placed in the display window of Mrs. McCormick's millinery parlors today, and is bound to attract a great deal of interest.

THREE CURES OF SEVERE ECZEMA

Michigan Woman Tells of Her Brother's Terrible Suffering with the Disease—Grandchild and Another Baby also Permanently Cured.

CUTICURA REMEDIES PROVED INVALUABLE

"My brother had eczema three different summers. About the same time each summer it came out between his shoulders and down his back, and he said his suffering was terrible. He used different kinds of medicines that were said to be good for that disease, but nothing seemed to do him much good. When it came on the third summer, he bought a box of Cuticura Ointment and gave it a faithful trial. Soon he began to feel better and he cured himself entirely with Cuticura and has never been bothered with eczema since. He also used Cuticura to cure a bunch over his eye and a terrible corn which was so bad that he could not wear his shoe. A lady in Indiana heard of how my daughter, Mrs. Miller, had cured her little son of terrible eczema by the Cuticura Remedies. This lady's little one had the eczema so badly that they thought they would lose it. She used Cuticura Soap and Cuticura Ointment and it cured her child entirely, and the disease never came back. Mrs. Sarah E. Lusk, 67 Peckham St., Coldwater, Mich., Aug. 15 and Sept. 2, 1907."

FEASTER WILL NOT RUN.

After Careful Thought, Decides He Will Not be Candidate for Sheriff.

Road Superintendent J. R. Feaster, who has charge of the construction work of the Hague district, was in the city mingling with his friends for a short while Sunday, being en route from Rochelle, where he has been on a visit to his mother.

When asked about his aspirations for sheriff of Alachua county, Mr. Feaster replied that, after careful consideration, he had decided that he would not be a candidate at this time, notwithstanding that many friends had been urging him to do so.

"My whole heart is wrapped up in good roads now," he said "especially, of course, in those roads which I am building. I would naturally be compelled to leave this work in other hands in order to make a canvass in the event I should become a candidate, and I don't want to neglect my duty so long, hence, in the words of the old shoemaker, I'll just keep 'pegging away' until some other time."

Mr. Feaster's friends, while they would like to see him enter the race, believing he would be strong, cannot help but admire his loyalty on the road question, as well as his determination to "stick to it."

TONY BOSBEY RELEASED.

Man Accused of Murder of Negro Woman Released on Light Bond.

From Tuesday's Daily Sun.

Tony Bosbey, the negro who is charged with the shooting of Savannah Moore, a colored woman, at her home in Evinston, a few weeks ago, from the alleged effects of which the woman nas since died, was arraigned in Justice Smith's court at Micanopy, and, after hearing evidence in the case, Bosbey's bond was placed at $250 for his appearance at the next term of the circuit court, which it is understood he gave.

The story of the tragedy, as it was related by those who are supposed to know, is still fresh in the minds of the public. It will be remembered that Bosbey, after "mocking" the woman's deceased father, shot the woman, it is said, striking her in the thigh and inflicting a dangerous wound, a few days after which she died.

In the meantime Bosbey was arrested and placed in the Micanopy jail, but Marshal Crisman, feeling some fear for the safety of his prisoner, conveyed him to Gainesville, where he remained until the preliminary hearing.

He made an excellent talk along the lines of Elkdom, and, being a fluent speaker, his remarks were heard with the greatest interest.

OFF TO THE MINES.

Deputy Sheriff Walker Took Two Offenders to Rawls & Co. Tuesday.

From Wednesday's Daily:

Deputy Sheriff I. C. Walker took two prisoners, S. Jones and Fred Hall, both colored, to Rawls & Co., the lessees, Ocala, Tuesday.

Jones, a young colored man, was convicted in Justice Everett's court at Wilcox upon a charge of carrying concealed weapons, and got $100 fine or three months.

Hall, as was noted in The Sun of Tuesday, was convicted before Justice Caswell at Alachua for petit larceny, and he must serve six months, in default of a fine of $100.

An Enjoyable Straw-Ride.

A few of the University boys and their young lady friends participated in a delightful straw-ride to Newnan's Lake Monday evening, and, the night being beautiful, a full moon, it is needless to add that the trip was a most enjoyable one.

Arriving at the lake a delightful luncheon, prepared by the young ladies, was served, and after a pleasant hour spent on the romantic shores of that beautiful sheet of water, the party started for home, arriving here about 9 o'clock.

The party was chaperoned by Mrs. H. H. McCreary, to whom the young folks are greatly indebted. They all voted Mrs. McCreary a most charming chaperon.

GUARANTEE

We guarantee the "Odorless" Refrigerators to be just as represented and of first-class workmanship and construction. Any "Odorless" Refrigerator found defective in any particular will be taken back and purchase money refunded. Absolutely odorless refrigeration is what you get in the "Odorless" Refrigerator. There can be no mixing of odors, nor can any foul air remain. The heavier cold air forces the foul air out through the vent, leaving the contents of the refrigerator sweet, cool, and preserving them in an absolutely sanitary atmosphere. No other refrigerator but the "Odorless" is built upon this principle. The construction is patented and cannot be used by any other manufacturer.

This is the refrigerator of which Mrs. Rorer says: "You can put in it any thing that has an odor, together with milk and butter, leaving the two latter in open vessels without contamination." Hence its name,

THE "O-D-O-R-L-E-S-S"

It needs no weekly scrubbing and scalding and it saves ice. In the end it costs less than so-called refrigerators that are sold for less money.

Business appears to be reviving everywhere except in Congress.

"Uncle Joe" Cannon loves the idea of tariff revision with a deadly hatred.

An exchange asks "Can Taft be elected?" Better wait first and see if he can be nominated.

Even with "In God We Trust" restored to our coins, it will still be necessary to hustle for a living.

It hardly seems possible that anybody hates Germany bad enough to want to see her get the Philippines.

Hetty Green, determined to have the best of everything as usual, insists that her future son-in-law shall be peerless.

While he may not be responsible for the late financial "panic," Roosevelt is undoubtedly the author of the political panic now disturbing some of the G. O. P. brethren.

Beginning May 1st all saloons in Lincoln, Neb., will be open only in daylight from 7 a. m. to 7 p. m. This will compel the man who wants "to keep his birthday" to begin early in the morning.

William Randolph Hearst is making a great secret of whom the Independence League prefers as the Presidential nominee. Now of course some ignorant person in the back row is going to giggle.

Allan Rodgers, the good roads man of Jacksonville, is a candidate for the Legislature from Duval county. If his election will insure improvement of the public highways he ought to win "hands down."

"At last," says The St. Louis Times, "it has filtered through the country that St. Louis has the clearest drinking water of any large city in America." But that isn't what "made St. Louis famous," is it?

If William D. Haywood, ex-secretary of the miners' association, is permitted to talk long enough, he may convince the country that the President knew what he was about when he classed him as an undesirable citizen.

According to The Houston Post, a Dallas man has come home late seventy-eight nights in succession with a different explanation each time that was perfectly satisfactory to his wife. A man like that really ought to be in the diplomatic service of his country.

The Independence League will not support Mr. Roosevelt, Mr. Bryan, or Governor Johnson, says The New York American, but will nominate a candidate for President. This shows that Mr. Hearst has entirely cut loose from his former affiliations with the Democrats or Republicans.

Pity the poor newspaper man, for another print paper trust is forming with a proposed capital of $50,000,000. The report of the organization says "little cash will be required," but we doubt that, for experience teaches us that all the corporations want all the cash they can squeeze out of the American people.

MICANOPY SECTION G. K.

G. D. Folks, traveling representative of The Sun, has returned from a general tour of the east and south ends of the county, where he not only met with fine success, but was royally entertained.

Mr. Folks is one of those fellows who always has a good disposition, and carries it with him. As a result he is easy to become acquainted with, because he does not believe in formalities, and "pitches right in" as though he had known the people always.

But the people appreciate this feature of Mr. Folks' disposition, because he has the faculty of making himself at home and welcome everywhere and under every circumstance—and those whom he had never met before feel the same impulse—that he is welcome.

Mr. Folks visited many places during his last trip, but felt especially impressed with Micanopy and its surroundings.

In speaking of the cabbage crop, he says there is a large acreage of the finest plants, but apparently no market for them. The prospects for an early bean crop are good, as the beans are up and looking well.

The men engaged in fishing are experiencing fine luck. The catches are large, the fish are choice and bringing good returns.

Rain is badly needed, but many of the growers have irrigating plants, much to the disadvantage of the growers who must depend upon the weeping of the clouds.

One of the most interesting points visited by Mr. Folks was the stock farm of J. B. Simonton, a beautiful place, well kept by a good man. He speaks highly of the hospitality extended by Mr. Simonton and his good wife, who did everything possible for his entertainment. Mr. Simonton has, among other things, about eighty head of fine full-bred Jerseys, which are admired by everyone who sees them, and which are destined to pay him handsomely in time. Everything is up-to-date at the Simonton farm, which is one of the finest in the State.

Mr. Folks states that the Carolina House at Micanopy is full of traveling men all the time, which is the best evidence of the popularity of that popular resort, which has long been one of the leading country hotels of the State.

POLITICAL UNREST.

There is no doubt that the result of present political and business unrest is causing many people to break away from their old political moorings. Party lines can no longer be drawn as tightly as in former campaigns, and the independent voters will have to be, more than ever before, appealed to. A great business man and Democrat, Hon. William L. Douglas, who showed himself when Governor of Massachusetts to be also a statesman, in a late interview has given us his opinion of the trend of public opinion when he said:

"That the methods and tactics of the administration at Washington are doing much to obliterate party lines, I can readily believe; that they will benefit the Republican more than the Democratic party, is far less certain. The Democratic party should, in my opinion, do all possible to abolish special privileges and to give the people a square deal. It should be less spectacular in its methods and more certain in producing substantial results. Above all things, it should take a strong position for immediate tariff reduction on raw materials and foods, and especially for the entire removal of all duties on trust products sold cheaper to foreigners than to Americans. It should also do all in its power toward securing reciprocal trade relations with Canada and all other countries. With such a platform and with candidates that command the confidence of the people, I believe our party would not only gain the support of many honest manufacturers, now Republicans, but would win at the polls. I have no fear of the result when the Democratic party presents a proper platform and candidates to the voters."

THE BEVERIDGE BILL.

The Beveridge bill (S. 3163) provides that "there is hereby created a commission which shall be known as the tariff commission," and that "said commission shall consist of seven members appointed by the President of the United States, by and with the advice and consent of the Senate; that said commission shall be appointed solely with a view to qualifications as specified in this act, and without regard to political affiliations," etc.

Such a commission would be absolutely unconstitutional. It would be a usurpation of the exclusive right of the House of Representatives to originate revenue bills. Whatever its functions might be, whoever might be its members (Democrats or Republicans, both or neither), it would deprive the people's immediate representatives, and therefore, in effect, the people themselves, of laying the taxes; for "laying" taxes includes both the suggestion and the enactment of the rates of taxation. To exact a tax means the laying as well as the collection of it; and it could be neither laid nor collected until it had been proposed.

Governor John Johnson of Minnesota says he will not accept the Democratic nomination for President. No, he certainly will not. William J. accepted is first.

Does Your Heart Beat

Yes. 100,000 times each day. Does it send out good blood or bad blood? You know, for good blood is good health; bad blood, bad health. And you know precisely what to take for bad blood—Ayer's Sarsaparilla. Doctors have endorsed it for 60 years.

One frequent cause of bad blood is a sluggish liver. This produces constipation. Poisonous substances are then absorbed into the blood. Keep the bowels open with Ayer's Pills.

Made by J. C. Ayer Co., Lowell, Mass. Also manufacturers of

A SHORTSIGHTED MISTAKE.

How shortsighted and selfish our Republican protectionist statesmen have been! They have thrown away the trade of half the continent by making the tariff tax so high that Canada can only trade with us to a limited extent, and also by refusing to moderate this protectionism by reciprocity. To protect herself from our trust products, Canada, very naturally, was compelled to raise a similar tariff wall. The result is that the people of both countries are plundered by the high price of products that under a tariff for revenue they could buy much cheaper.

Hon. Frank W. Pope of Jacksonville will be a candidate as a delegate to the National Democratic Convention at Denver. Mr. Pope is one of the ablest men in Florida, and the Democrats could not do better than to be represented by him.

"What has become of the old-fashioned boy who used to offer to fight a smaller boy on his knees and with one hand tied behind him?" asks The Atchison Globe. Why, we understand he is married, and gets all the fighting he wants.

POLITICAL ANNOUNCEMENTS

Advertisements under this head, not exceeding nine lines, will be published one time a week in the daily, and one time a week in the semi-weekly, from now until the Democratic primary on May 19th for $10; after April 1st the rate will be $5. Cash must accompany the announcement in every instance.

FOR SHERIFF.

At the earnest solicitation of many friends throughout the county, I announce for the office of Sheriff of Alachua county, subject to the action of the primary election. If elected I assure the people that I will serve them faithfully and impartially.

P. G. RAMSEY.

I hereby announce myself as a candidate for the office of Sheriff of Alachua county at the ensuing Democratic primary, and solicit the support of the voters. I promise, if elected, to discharge the duties of the office without fear, favor or partiality, to the best of my knowledge.

W. G. RICHARDSON.

In the primary election four years ago I made the statement that if my friends would give me the office at that time, I would not again ask for it. My intentions were pure, and on no account would I have come before you, again asking your support, of my own accord, but many of the best men from various sections of Alachua county have petitioned me by writing and a great many others personally to stand for the nomination of Sheriff in the coming primary, and today I received an official request from one of the most powerful moral organizations in the country, urging me to stand for the nomination, and, in deference to their wishes, I announce that I will accept the nomination for Sheriff of Alachua county on the platform and according to the rules of the Democratic primary, held May 19th, and if nominated and elected I will perform the duties of the office with the same impartiality and justice that I have done in the past.

L. W. FENNELL.

March 6th, 1908.

FOR COUNTY JUDGE.

To My Friends and Fellow-Citizens: I am a candidate for County Judge, and I ask you for your votes. I will administer this office without favor to anyone; so please register, pay your poll taxes and vote for

Yours truly,

J. A. CARLISLE.

I respectfully announce myself a candidate for re-election as County Judge. NEWS NOTES FROM NATIONAL CAPITAL

Another Land Fraud Has Been Recently Discovered.

REPUBLICANS HAVING TROUBLE

Among Themselves, and the Fight Becomes More Bitter Daily—Senator Bailey Delivers Great Speech—Other Notes of Interest from Washington.

Special Correspondence The Daily Sun.

Washington, D. C., March 18.—An ugly land fraud almost under the dome of the Capitol has been discovered within the last week whereby the Government has been defrauded of land worth a very considerable sum and only by a mere chance avoided losing another valuable tract. Senator Carter exposed the transaction in the Senate and that body immediately repealed the law which conveyed to Bieber his last title, the Secretary of War having delayed acting under that enactment. It is not known what the House will do in the matter as it is evident that in that chamber there are powerful influences at work to hush the whole matter up. For the entire parcel of land, Bieber appears to have paid about $5,000, the parcel containing about 20 acres, and for a small part of the land he recently refused to accept from the Pennsylvania railroad $15,000 cash. The Government has already expended $300,000 for improving the Anacostia river on which this land, which carries the riparian rights, abuts, and it is proposed to expend a very much larger sum. The records show that for the last transaction Representative Bartholdt of Missouri was responsible and Mr. Bartholdt has made a statement saying that the action of his committee was perfectly proper and regular, but there is every indication that the Senate will express a different opinion. It is assumed in the Senate that Bieber must have exerted very powerful influence in the House to secure such favorable legislation.

Bieber was formerly assistant fire marshal of the District of Columbia. He became ill and through the kind influence of Speaker Cannon he secured a pension of $90 a month for life, although he is still a man of middle age and is now in excellent health. He has recently been engaged in an effort to have the two delegates from the District instructed to vote for Speaker Cannon in the Republican National Convention. When asked on the night after Senator Carter made the exposure in the Senate what he had to say regarding it, Bieber said that he was "too busy with local politics to discuss the matter."

The fighting in the Republican ranks is becoming more and more bitter every day. A Republican Representative, Mr. Acheson, of Pennsylvania, has recently inspired a report to the effect that Cecil Lyon, of the Republican National Committee from Texas, was collecting from postmasters in that State 10 per cent of their salaries as a campaign fund. Then the President came back at Mr. Acheson and pointed out that a Republican, but not Cecil Lyon, had attempted to make such a collection, that he had been prosecuted by direction of the President and that only this week the Supreme Court of the United States has decided that case against the said Republican, who is now liable to a fine of $60,000 and imprisonment for thirty years. The political end of the fight is interesting, however, from the fact that this arrays Acheson against the President and vice versa, and as Acheson is having a very hard fight in his district against a prominent Pennsylvania Elk, it is now believed the Congressman will be defeated.

The most brilliant speech which has yet been heard on the Aldrich bill was made last week by Senator Bailey of Texas. Mr. Bailey spoke for three and one-half hours and held the attention of an audience which crowded both the Senate and the galleries, many Democrats coming over from the House to listen. Mr. Bailey opposed the Aldrich measure because he believes that the banks should be allowed to issue no money and that such issue should be confined to the Government. He indicated, however, that if he could not get his substitute, providing for $1,000 million emergency Treasury notes, he would vote for the Aldrich bill.

Congress seems prepared to pass the Frye resolution which provides that the material for the Panama canal must be carried in American vessels unless the prices charged are extortionate. Of course this exception makes the bill seem fair on its face, but the fact is that under such a bill the Secretary of War will feel compelled to pay at least 50 per cent more to American ships than is asked by foreign vessel owners, and even if when asked still higher prices by Americans there will be a howl of indignation from the vessel owners if he dares to employ foreign ships. That was the case with the vessels carrying coal to the Pacific for the current battleship cruise, it will be remembered, although the Secretary did fly in the face of the ship-owners and charter a number of foreign vessels.

Representative Tawney is again shouting economy, and he declares there will be no public building bill this year, and that provision will be made for only two battleships if he has his way. He says he is determined to keep the total appropriations down to the limit for the current year, $920,000,000, but it will be interesting to see if Mr. Tawney raises his voice against the pernacious pension legislation whereby it is proposed to put all the old soldiers' widows who are not entitled to a pension under the existing laws, on the rolls at $12 a month, thus increasing the pension budget by about $15,000,000 a year. That is a measure with which it is expected to make Republican votes and perhaps promote the candidacy of Speaker Cannon. Cannon makes Tawney chairman of appropriations, and so it goes.

AFTER TWENTY-NINE YEARS.

"For twenty-nine years I have been at intervals a great sufferer from rheumatism," writes James Hyde, of Beebe, Ark. "During that time I used gallons of various kinds of liniments and oils, but got very little relief. The attacks were so bad that I was often confined to my bed helpless for weeks and months at a time. Not long ago, while suffering from a severe attack, a sample bottle of Sloan's Liniment was sent to me for trial. My surprise was great when I found that it gave me instant relief, and I immediately ordered two large bottles. I have used about a half of one fifty-cent bottle and feel so well that I want everybody afflicted as I was to know what Sloan's Liniment has done for me, and I shall always have a feeling of gratitude for the man who sent me the sample bottle."

MISTRIAL RESULTED IN SLAUGHTER CASE

Young Man From West End Arraigned in U. S. Court.

THE JURY FAILED TO AGREE

Slaughter is Charged With Breaking and Entering Postoffice at Wannee, But Prosecution Evidently Could Not Get Sufficient Evidence to Convict.

The Florida Times-Union of Monday contains the following, which will prove of interest to readers of The Sun, as the defendant is a well-known young man, and has many friends in the West End, where he makes his home:

"The Federal court jury in the case of Naoli Slaughter, a young white man, charged with breaking and entering the postoffice at Wannee, Fla., after being out five hours, disagreed at 9:30 o'clock last night, and the case resulted in a mistrial.

"The strongest evidence against the defendant, and that upon which his arrest was based, was the fact that shortly after the robbery he had a considerable amount of money in his possession. Witnesses testified at the hearing that they had changed various denominations of small change, as would likely accumulate in a postoffice, into bills for young Slaughter a few days after the robbery. W. J. Locke, postmaster at Wilcox, testified that he sent a registered letter for Slaughter to Solomon Shad in this city. A. J. Shad testified he had opened a letter addressed to Solomon Shad and signed by R. E. Bell. This is the name the Wilcox postmaster testified that Slaughter used in registering the letter.

"The defendant produced some strong testimony in his behalf, and when the case went to the jury its outcome was felt to be doubtful.

"Another trial will in all probability be ordered."

THE VALUE OF PERSONAL KNOWLEDGE

Personal knowledge is the winning factor in the culminating contests of this competitive age and when of ample character it places its fortunate possessor in the front ranks of

The Well Informed of the World.

A vast fund of personal knowledge is really essential to the achievement of the highest excellence in any field of human effort.

A Knowledge of Forms, Knowledge of Functions and Knowledge of Products are all of the utmost value and in questions of life and health when a true and wholesome remedy is desired it should be remembered that Syrup of Figs and Elixir of Senna, manufactured by the California Fig Syrup Co., is an ethical product which has met with the approval of the most eminent physicians and gives universal satisfaction, because it is a remedy of

Known Quality, Known Excellence and Known Component Parts and has won the valuable patronage of millions of the Well Informed of the world, who know of their own personal knowledge and from actual use that it is the first and best of family laxatives, for which no extravagant or unreasonable claims are made.

This valuable remedy has been long and favorably known under the name of—Syrup of Figs—and has attained to world-wide acceptance as the most excellent family laxative. As its pure laxative principles, obtained from Senna, are well known to physicians and the Well Informed of the world to be the best we have adopted the more elaborate name of—Syrup of Figs and Elixir of Senna—as more fully descriptive of the remedy, but doubtless it will always be called for by the shorter name of—Syrup of Figs—and to get its beneficial effects, always note, when purchasing the full name of the Company—California Fig Syrup Co.—printed on the front of every package, whether you call for—Syrup of Figs—or by the full name—Syrup of Figs and Elixir of Senna.

TWO ARE KILLED IN TRAIN WRECK

Accident to Train on A. C. L. Near Richland.

ENGINEER WAS BADLY INJURED

Wreck the Result of the Partial Burning of a Trestle—Men Killed Are Both Colored—News Notes and Personals from High Springs.

High Springs, March 18.—News has just been received here of a terrible wreck which occurred at 4 o'clock this morning near Richland, on the A. C. L. Train No. 213, which left High Springs last night at 7:40, ran off of the Hillsborough trestle, which was on fire and partly destroyed. The engine and several cars were burned up. Engineer DuBose was badly injured and two negroes, fireman and brakeman, were killed. Superintendent Council was on the train, but was unhurt, and walked back to Richland and reported the wreck.

The death of Mr. R. Futch occurred at Santa Fe on Monday, the 16th, at the home of his son-in-law, E. L. Price. Mr. Futch was one of the oldest inhabitants of this section, being 84 years old. He was a man greatly respected and beloved by all who knew him. He was the father of fourteen children, ten of whom survive him. The burial took place at New Hope cemetery, near Santa Fe, on the 17th, in the presence of an immense crowd of relatives and friends.

Judge J. Emmett Wolfe and wife of Tallahassee returned home Wednesday, after being the guests for several days of Mr. and Mrs. H. G. Bannon. Judge Wolfe is the newly-elected Grand Chancellor of the Knights of Pythias, and his visit to High Springs Lodge No. 51 was the first in his official capacity. His popularity in the K. of P. order was evidenced by his unanimous election to the highest office during the recent convention at St. Petersburg.

Miss Marie Mann of Newberry spent Sunday with Mrs. P. P. Wood. Miss Mann was principal of the High Springs school last year, and has many friends in this place.

J. C. La Count and Jno. Day, representatives from the K. of P. lodge, and Mrs. G. W. Easterlin and Mrs. P. P. Wood, who represented the Pythian Sisters, have returned from the convention at St. Petersburg. They report that it was a most delightful occasion, so much being done for their entertainment.

THE NEWS FROM MELROSE.

Delightful Entertainment of Woman's Home Mission Society.

Melrose, Fla., March 18.—The Woman's Home Mission Society of Melrose ought to feel very proud indeed of the great success of their first entertainment, given at the home of Mrs. A. W. Craig Monday night. This beautiful old Southern home, with its spacious verandas and large hall leading into numerous fine entertaining rooms, was an ideal place for just such a gathering, and although over a hundred people were present, there was room to spare for many more.

The varandas were all lighted up with pretty Japanese lanterns. The hall had a large Japanese lantern in the center, from which festoons of lovely pink and green ribbons reached to the sides, the walls being handsomely decorated with palms. The parlor was gay with festoons of red, white and blue, mingled with the red and white of the Confederacy. Large branches of snowy dogwood were arranged against the walls, the other rooms being equally artistically decorated.

The following program was successfully rendered:

Piano solo—Miss S. Mullin.
Piano solo—Miss Nora Mullin.
Short talk—Rev. Barr.
Song—Mrs. Ford and Miss Barnett.
Piano solo—Miss S. Mullin.
Recitation—Miss K. Mizelle.
Piano duett—Miss V. Husband and R. Kennedy.
Reading—Mrs. A. J. McGregor.

This was followed by the serving of delicious ice cream and cake, and then the fun began. Nearly every one present had come provided with a mysterious package or box, ready to trade with their friends. Many amusing "swaps" were made, causing great enjoyment and laughter; the final "swaps" very often leaving the owner with an empty box. Still some very good exchanges were made by some smart traders.

Altogether it was a delightful affair, and the committee, consisting of Mrs. O. C. Rutland, Miss A. W. Craig, Miss C. Mellen and Miss May Barnett, are to be congratulated on their financial and social success.

The W. H. M. S. of Melrose is growing rapidly, new members being added at nearly every meeting. May this society prosper and continue its good work, is the wish of all Melrose.

Mr. and Mrs. C. A. Ives of Mt. Carmel, Conn., are occupying the Dunbar Cottage during the absence of its owner.

C. P. Huffman, Jr., is over from Live Oak for a few weeks' vacation.

Mr. and Mrs. Leo Grimes of Jacksonville arrived in town yesterday on their way home from their bridal tour. They are the guests of Mrs. O. C. Grimes.

Alleging that he has been falsely imprisoned, Ole Malland, who has been residing in Pensacola for a short time, has brought suit against S. Nooheim and Thomas S. Falck, in the sum of $5,000. The latter two parties caused the arrest of Malland, making affidavit against him, and causing a warrant to issue for his arrest. He was held in jail for twelve days, and when he was tried was found not guilty of the charge brought against him. He alleges that during this period he was unable to support his family and that his arrest is also working a hardship against him, in that the stigma of having been confined in jail has prevented him from securing employment.

FIRST DAY'S SESSION OF THE LEAGUERS

Many Delegates From Every Section of Florida Were There.

MEETING A GRAND SUCCESS

It Was Almost a Love Feast of Those Who Participated, As They Felt They Were Here in the Cause of God and Community.

From Wednesday's Daily Sun:

With a large number of delegates, gentlemen and ladies, preachers and laymen, in attendance, the first annual session of the Florida Anti-Saloon League, of which Rev. W. R. Lambert of this city is president, was called to order at the Tabernacle Tuesday evening at 7:30 o'clock—and it was one of the happiest moments in the lives of many people. The big Tabernacle even seemed to quiver with delight and satisfaction, as the sweet songs and eloquent pleas in behalf of temperance and the abolition of the saloon from the land were raised to the large audience present. There were delegates present from the most important to the most remote sections of the State, and the first meeting of the first session was a grand union and love-feast among them, many of whom had been formerly acquainted, and many whom many had never seen before; but there were no formalities, and it did not require long for everyone to feel perfectly at home, after the meeting had been well oiled with the spirit of enthusiasm.

The convention was opened with devotional exercises, conducted by Rev. Thos. P. Hay, of the First Presbyterian church. This was followed by an address of welcome by Hon. Christopher Matheson, representing Mayor W. R. Thomas, who is suffering from throat trouble. Mr. Matheson stated that he believed that this meeting was one of the Godsends which had fallen to Gainesville, which he deemed not only the best interior city of the State, but the very best, morally and otherwise. He told of the great blessing and benefit to the city and its people the driving out of the saloons had worked for Gainesville, and thanked God for the change. He felt sure that never again would the people of Gainesville and this community be cursed with the presence of saloons, the sin and obscenity of which could not be fully realized until after they had gone. We are living in a clean, moral, Christian, God-fearing town now, which was a blessing to every man, woman and child in it, whether they realize it or not.

As the most impressive evidence of the benefit derived form prohibition, it is cited that the records of the city tax assessor show an increase in valuation four years prior to the time saloons were abolished to be $30,000, while the increase in valuation for the four years succeeding was $380,000. From this increase one may judge whether the saloon is a benefit or a detriment to a community.

Rev. W. A. Hobson, D. D., of Jacksonville, responded to Mr. Matheson's address in a clever, entertaining and impressive manner.

After greetings from church and temperance organizations, the convention adjourned until Wednesday mosning at 10 o'clock.

Given Up to Die.

B. Spiegel, 1204 N. Virginia St., Evansville, Ind., writes: "For over five years I was troubled with kidney and bladder affections which caused me much pain and worry. I lost flesh and was all run down, and a year ago had to abandon work entirely. I had three of the best physicians who did me no good and I was practically given up to die. Foley's Kidney Cure was recommended and the first bottle gave me great relief, and after taking the second bottle I was entirely cured." Why not let it help you? J. W. McCollum & Co.

"The Blood is The Life."

Science has never gone beyond the above simple statement of scripture. But it has illuminated that statement and given it a meaning ever broadening with the increasing breadth of knowledge. When the blood is "bad" or impure it is not alone the body which suffers through disease. The brain is also clouded, the mind and judgement are effected, and many an evil deed or impure thought may be directly traced to the impurity of the blood. Foul, impure blood can be made pure by the use of Dr. Pierce's Golden Medical Discovery. It enriches and purifies the blood thereby curing, pimples, blotches, eruptions and other cutaneous affections, as eczema, tetter, or salt-rheum, hives and other manifestations of impure blood.

● ● ● ● ● ●

In the cure of scrofulous swellings, enlarged glands, open eating ulcers, or old sores, the "Golden Medical Discovery" has performed the most marvelous cures. In cases of old sores, or open eating ulcers, it is well to apply to the open sores Dr. Pierce's All-Healing Salve, which possesses wonderful healing potency when used as an application to the sores in conjunction with the use of "Golden Medical Discovery" as a blood cleansing constitutional treatment. If your druggist don't happen to have the "All-Healing Salve" in stock, you can easily procure it by inclosing fifty-four cents in postage stamps to Dr. R. V. Pierce, 663 Main St., Buffalo, N. Y., and it will come to you by return post. Most druggists keep it as well as the "Golden Medical Discovery."

● ● ● ● ● ●

You can't afford to accept any medicine of *unknown composition* as a substitute for "Golden Medical Discovery," which is a medicine OF KNOWN COMPOSITION, having a complete list of ingredients in plain English on its bottle-wrapper, the same being attested as correct under oath.

Dr. Pierce's Pleasant Pellets regulate and invigorate stomach, liver and bowels.

THE DELEGATES AT HOME.

Have Returned from Annual Meeting K. of P. Well Pleased.

Grand Chancellor Louis C. Lynch, Robt. E. Davis, A. M. Cushman and Geo. P. Morris and wife, have returned from St. Petersburg, where they went to attend the annual session of the Grand Lodge, Knights of Pythias, which was in session in that city for three days last week, Mrs. Morris representing the Pythian Sisters.

According to the report of the delegates attending from Mt. Vernon Lodge, the convention just closed was one of the most enjoyable ever held in the State, as well as one of the most largely attended. The good people of St. Petersburg exerted every effort for the entertainment of the visitors, and with remarkable success, as their stay in the "City by the Gulf" will not be forgotten.

The question of selecting a permanent location for the Grand Lodge was again brought up. Jacksonville entered for the place, but Gainesville was a close competitor and a strong one, Captain George M. Lynch, formerly of this city but now president of the Jasper Normal Institute, Jasper, making a most magnificient plea in inviting the Pythians to make their future and permanent home here.

Captain Lynch is a fine and forceful speaker, and on more than one occasion has fought for the rights of Gainesville, from every point of view. In this instance there was no exception, as Captain Lynch did not hesitate to draw out in a forceful manner the advantages, morally, geographically and otherwise, why Gainesville was "the place."

Gainesville needs a few more friends like Captain Lynch in public conventions, as he has accomplished a great deal in calling the attention of the people to this city as an advantageous point in every way.

Albert W. Gilchrist

Candidate for Governor of Florida

No faction, machine or ring, brought him out. He came out as a 'candidate alone and single-handed. He will be glad to receive the support of the corporations, of the anti-corporations, the prohibitionists and the anti-prohibitionists of the local optionists, the Christians and the Jews and of the Gentiles, the "Publicans and sinners." He would even accept the support of the Pharisees.

The corporations cannot do without the people, and the people cannot do without the corporations. Neither should be allowed to oppress the other. Capital is organized, labor should organize.

The license tax law licensing each little enterprise should be amended in order that taxation should bear more evenly.

Article XIX of the Constitution provides for Local Option. The qualified electors (not the Governor) approve or veto constitutional amendments. He is not on the "recently constructed band wagon."

He commenced life working in Quincy, Florida, at a salary of $15 per month, and boarded himself. He has himself been a hard-working, struggling man and he knows what it means in others. He has never married, he has always had obligations. His life has been spent more in thoughtful consideration of other people than of himself. He feels sure he will be elected "if he gets enough votes." He does not propose to trade off a single office. There is honor in being Governor. If it is tainted with dishonor he does not want the office.

Misfortune to Mr. Hague.

From Tuesday's Daily Sun.

S. G. Hague, a well-known young man who comes from the town which bears his name, had the misfortune to meet with a painful accident Friday night, sustaining a broken arm.

In some manner Mr. Hague lost his footing and fell. In throwing out his right arm for protection it was suddenly wrenched, the weight of his body breaking it.

The patient was brought to the city, where medical attention was rendered, and at last accounts he was getting along as nicely as could be expected under the circumstances, although the victim will be incapacitated for duty for several weeks.

M. Johnson.

Death of Mrs. Stroble.

Mrs. Lawrence Stroble died Sunday afternoon at her home about eight miles west of Gainesville of pneumonia.

Deceased had many friends throughout the section in which she resided, all of whom regretted very much her demise.

The funeral was held Monday afternoon, the interment being in Jonesville cemetery.

A sad feature of the event was the fact that at the time of her death and funeral her husband was also very low, and is yet quite ill.

The fifth annual session of the Southfield Bible Conference will be held at Crescent City from March 27th to April 5th.

C. F. Howe of Orlando was convicted of selling whiskey in a dry county and sentenced to one year at hard labor on the Orange county farm.

St. Augustine is soon to build a fine new school building near the city gates, and in view of the terrible disaster at the Collingwood school in Ohio, this school building will be built strictly fire-proof.

Tampa has a new scheme to rid the city of mosquitoes. They propose to place minnows in all cisterns throughout the city and let the little fish devour the wiggletails, from whence comes the mosquito.

Four blind tigers have been caught in Palatka recently. They were all captured without difficulty. Sheriff Hower is hot after them and it is thought that the "tigers" will remain low for a long time to come.

James W. Perkins and Zack T. Bielby of DeLand are two orange growers who have made nice sums this season, the former cleaning up $8,500 and the latter $6,500. Their groves are in fine condition and a better crop of oranges are expected next year.

The Tampa News says that three or four hundred carloads of cabbage are rotting in the fields in South Florida because they will not pay the cost of transportation, and yet in the crowded cities men, women and children are beginning to feel the pangs of hunger. Certainly things are out of joint.—Ocala Banner.

A candidate for a county office in Putnam county, desirous of presenting solid, commercial reasons to the voters for their support, advertises that he will give $25 to each of six certain proposed public utilities, if elected, including a new courthouse, a bridge across the river at Palatka, and certain roads. Perhaps the voters will see a good bargain in this offer.—Times-Union.

In the case of the United States vs. W. G. Wells, charged with trespassing on the public domain in Polk county, Florida, where Hon. John M. Cheney, United States attorney, secured a verdict for the Government of $12,000, and an appeal was taken to the United States Circuit Court of Appeals, notice is given that the appeal has failed and that Wells must pay the United States Government the $12,000 assessed by the court.

A mass meeting of the citizens of Ocala held Monday night passed resolutions deploring recent disturbances of the peace and demanding that the city council at once remove the present police force, appointing a new one. The room was filled to its full capacity with the best representative citizens, The Banner says. The recent alleged assault upon a citizen by a policeman seems to have aroused considerable indignation in Ocala. To purge the police force is the only remedy where policemen themselves break the law.—Times-Union.

B. K. Richardson of Nairo sustained a loss of more than $20,000 Saturday night about midnight by the destruction by fire of his large saw mill, including a planing mill and dry kiln, and it was only by seeming fortune out of misfortune that his house and lumber yard were not destroyed. There was no means for fighting the fire, and necessarily it was allowed to run its course, but, luckily, the wind was blowing in such a direction as to drive the flames from the residence, and the yards where the greatest part of the lumber was stored, which otherwise would also have been destroyed.

One of our winter residents, Mr. Ellis, about a week ago, just after dinner, thought he would taste a castor oil bean, "just to see how it tasted." He ate two, nibbled at three more, but spit them out. In an hour or two he was a very sick man, as they are deadly poison. Dr. Chambers was hastily summoned and he could not leave his patient until 1:30 the next morning. For three days he was dangerously ill, with all the symptoms of poisoning. He is only able, up to this time, to be up and about part of the time, and is very weak. It is strange people will let them grow around their premises, when they know the beans are poisonous. We have had three such cases of poisoning.—East Coast Advocate.

Last Friday, by the order of Governor Broward, W. N. Smith, a negro convicted at the last term of the circuit court of the murder of his stepdaughter, was executed by Sheriff James Weeks. The execution took place at about 1:30 o'clock, and was witnessed by a large number of people. Smith, before he was executed, was allowed to make a statement on the gallows, but his statement was of such a nature that decency forbids its publication. He talked for nearly an hour and a half, during which time he referred to pretty nearly everything that had come under his observation during life. He admitted that he had had improper relations with his stepdaughter—the girl he was charged with killing—but never admitted his guilt of the crime. His talk proved him to be little more than a fiend, and he seemed to be absolutely devoid of fear. He laughed while talking as though he were ready to go to a colored festival or some other social entertainment. He was evidently trying to make the impression that his mind was unbalanced. He said he should a time or two that he was ready to die whenever the sheriff was ready to spring the trap.—Clay County Times.

Proof is inexhaustible that Lydia E. Pinkham's Vegetable Compound carries women safely through the Change of Life.

Read the letter Mrs. E. Hanson, 304 E. Long St., Columbus, Ohio, writes to Mrs. Pinkham:

"I was passing through the Change of Life, and suffered from nervousness, headaches, and other annoying symptoms. My doctor told me that Lydia E. Pinkham's Vegetable Compound was good for me, and since taking it I feel so much better, and I can again do my own work. I never forget to tell my friends what Lydia E. Pinkham's Vegetable Compound did for me during this trying period."

For thirty years Lydia E. Pinkham's Vegetable Compound, made from roots and herbs, has been the standard remedy for female ills, and has positively cured thousands of women who have been troubled with displacements, inflammation, ulceration, fibroid tumors, irregularities, periodic pains, backache, that bearing-down feeling, flatulency, indigestion, dizziness or nervous prostration. Why don't you try it?

UNIVERSITY NOTES

An experiment in cattle-feeding that will probably be of great interest to the stockmen of the State is now being carried on at the Station. Four sets of four steers each are being fed on different kinds of rations, and the results studied. These sets are as nearly uniform as possible, the total weight of the heaviest four differing from the weight of the lightest four by less than one hundred pounds. The first set are being fed on cottonseed meal and hulls; the second on crabgrass, corn, and cottonseed meal; the third on velvet beans, crabgrass and corn; and the fourth set on cottonseed meal, corn, and silage. It was sought to find out the value of one pound of protein of velvet beans as compared with cottonseed meal as a producer of tissue and muscle, and also to find out the relative values of silage and crabgrass hay as fat producers.

Present indications go to prove that it is twice as expensive to produce a pound of beef from cottonseed meal and hulls as it is to produce a pound from velvet beans, crabgrass, and corn. In other words it is most economical for cattlemen to use a "balanced ration."

People interested in this experiment are invited to visit the Station. Each pen is labeled to show what food each animal receives. The food supplied is weighed daily, and the steers are weighed weekly.

Mr. Winters, of the Station, is visiting Orlando, DeLand, and Sanford, at which places he is carrying on experiments in celery-raising.

Dr. Sledd will on next Sunday preach the Baccalaureate Sermon of the Wauchula High School commencement.

Do not forget the "Open House" at the University next Friday night. Conveyances will be found at the square to take visitors out to the grounds.

Until the drain on your system produces permanent disability. The human breathing machinery is a wonderful system of tubes and cells. To have good health it must be kept in good order. A COLD is considered of no importance, yet if it was known by it's proper name of "throat inflammation," or "congestion of the lungs," its dangerous character would be appreciated. When a cold makes its appearance use at once Ballard's Horehound Syrup which will speedily overcome it.

Mr. and Mrs. E. Ludwig, formerly of this city but now residing at Tioga, are rejoicing over the advent of a fine little girl into their home, and friends extend congratulations.

Dr. M. H. DePass of Archer, one of the most prominent physicians in this section of the State, and a director in the Gainesville National Bank, spent Monday in this city on business.

Mrs. S. Y. McFarland and children left yesterday for Oakland, where they will remain for an indefinite period with relatives. Mrs. McFarland recently sold her home to J. Bloxham Dell.

Friends of Mrs. G. F. Bayer, who has been indisposed for some time, will regret to learn that her condition does not seem to improve. Mrs. Bayer is an old resident here, and her illness is regretted very much.

The pay train of the A. C. L. made the "boys" happy yesterday by its appearance on time, distributing a large amount in salaries. The A. C. L. pay roll in this section alone amounts to several thousand dollars each month.

Miss Tillie Cook left yesterday for Richmond, Va., where she has secured a fine position as saleslady in a large dry goods house. Miss Cook's numerous friends regret very much to lose her, but wish her much success and happiness in her new home.

Mrs. Alex. Wittstock and daughter, Miss Cora, have returned from Cooter Pond, where they have been on a brief visit to friends and relatives. While there they attended the closing exercises of the Cooter Pond school, under the direction of Miss Donia Ford, which occurred, Friday the 13th. The pupils and their friends enjoyed a fine picnic which was largely attended. The patrons and the pupils of Cooter Pond school hope to have Miss Ford back another term.

Mr. and Mrs. F. D. Warner and C. A. Colclough left yesterday for Jacksonville. The gentlemen, who are well-known and successful growers, the former being president of the Florida Fruit and Vegetable Shippers' Protective Association, will appear, with a committee from the association, before the Inter-state Commerce Commission in an adjourned session, relative to securing more adequate rates for Florida products, in relation to products from other sections. A full history of the unjust discrimination on the part of transportation lines has already been published in The Sun.

Geo. L. Taylor of Palmer, superintendent of the Gainesville Peach Orchard Company, was a business visitor to this city yesterday. Mr Taylor is one of the most progressive citizens of the county, being at various times connected with the State Fair, and is now commissioner from Alachua county to the Florida Mid-Winter Expesition at Jacksonville. He originated the idea of the horse show, which proved so popular at this resort, and brought so much glory and recognition for the Standard Stock Farm and Alachua county, as was noted in The Times-Union of Sunday and The Sun of Tuesday morning. But Mr. Taylor is a modest man, and does not want to take the credit, notwithstanding that the exposition management and his friends insist that "it was he."

PHOTOGRAPHY.

Photography today is an economic and social necessity in every community. It maintains the memory and affections of family life through the picture it makes, and which we could not now do without. How often is regret expressed that no picture exists of some friend or relative who is no longer with us! Sometimes, indeed, the camera has to intrude upon the sacredness of the death chamber itself when relatives feel that a photograph in such circumstances is better than none at all. Do not procrastinate. Be wise and "secure the shadow ere the substance fades."

You can get a picture from locket to life-size at Smith's Studio.

A runaway dray horse caused a great deal of excitement yesterday, when he decided to take a "spurt" around the square, finally landing at the corner of East Main and Liberty streets, where the animal decided to inspect the stock of The G. W. Hyde Company. When the horse reached the pavement his foot slipped, which resulted in the animal falling to the walk, when he was captured.

Lawns Are Looking Well.

The Sun is glad to note the pride being manifested by the citizens of Gainesville in their lawns. Every property-owner who has a yard believes in keeping it right, and many who have recently purchased or built, where lawns were not in evidence, have set out their grass, and are using a liberal allowance of water to make them grow.

One of the main features of the beauty of a town in its lawns and gardens, and the people of Gainesville are determined in an effort to bring out these points.

LETTER TO JAS. M. GRAHAM,
Gainesville, Florida.

Dear Sir: A bank messenger lost a small coin. He set his bag down and looked for it. Found it, but somebody else had run off with his bag.

A man who is going to paint had better lookout for his gallons. Devoe is the least-gallons paint.

It's gallons that cost; it isn't the price of a gallon. With one paint, 10 gallons is plenty; another, 11 or 12 or 13 and so on to 22 gallons; and every gallon has to be paid for and painted —$2 to $4 a day for painting paint stuffed out with some sort of whitewash. The less the price of a gallon, the more the gallons.

Bank messengers better lookout for their bags and not stop to hunt for small coin; and property owners better lookout for the gallons that make the expense, and not for the price which has nothing to do with it.

Yours truly,
50 F. W. DEVOE & CO.

P. S.: The S. J. Thomas Co. sell our paint.

...WANTS...

FOR SALE.

EGGS—Pure S. C. Rhode Island Reds; $1.00 for 15, $5.50 for 100. Mrs. J. A. Barron, Evinston, Fla.

W. S. PRINDLE WAS FOUND DEAD IN ROAD

Well-Known Citizen of Gainesville Met a Sudden Death.

APOPLEXY CAUSE OF HIS DEATH

Man Well Known in This Section, Having Been for Years Connected With the Chase Interests—Friends Respond When Death Was Reported.

This city was thrown into a state of excitement Wednesday afternoon, when it was learned that W. S. Prindle, a well-known citizen and resident of this city, was found dead in the road near Paradise a short time after noon on that day.

The telephone message came to this city to the offices of The Dutton Phosphate Company, where the deceased was connected with the C. W. Chase Company as superintendent of lands, and the news spread rapidly, as Mr. Prindle was a man well known and popular.

Immediately after receipt of the information, the ambulance, accompanied by several vehicles containing friends, went to the scene, and found the lifeless form of Mr. Prindle stretched upon the ground, in the middle of the road, his face and countenance as black as ink, with no trace of recognition except to those who knew him well.

There is no doubt that Mr. Prindle died of apoplexy, and very sudden. He left this city about 10 o'clock, as was his custom, to look over the work of the Chase interests at Paradise, and, arriving at Paradise, he complained of feeling badly. However, he proceeded, and the next thing known was the report that he had been found on the road dead.

The remains were brought to this city in the afternoon, and were taken to the undertaking parlors of Robt. McClellan. Funeral will be held at 2 o'clock p. m. today, Rev. F. H. Craighill of the Holy Trinity Episcopal church officiating. The interment will be in the private cemetery.

Mr. Prindle is survived by a wife, to whom the sympathy of the community is extended.

THE ANTI-SALOON LEAGUE.

Interesting Program Carried Out at Tabernacle Yesterday.

The program of the second day of the Florida Anti-Saloon League, which is being held at the Tabernacle, was one of enjoyment, as the program was one full of interest to those who attended.

It is to be regretted that the entire program could not be published, but this is the fault of the management, who promised to have the secretary furnish proceedings. However, we suppose both the management and secretary were weary at the end of the meeting, and did not feel like coming to the newspapers.

The program for Wednesday was a most interesting one, and was carried out as planned. There was a fine address by Hon. J. N. C. Stockton in the evening, who spoke on "State Legislation Needed, and Why." Mr. Stockton had a fine audience, and held the closest attention of those who heard him.
